Alameda County Breweries Combine to Advance Trade

NEW HOLDING COMPANY IS FORMED IN OAKLAND

The Title of Concern Will Be Golden West Brewing Association.

MANY BIG COMPANIES ARE IN ORGANIZATION

Competition Is Wiped Out and Big Saving Made in the Expenses.

There has been a consolidation formed among the brewers of steam beer in Alameda county for the purpose of saving themselves from the unnecessary expenditure of money in the transaction of their business, limiting the cost of handling output and thus abolishing cutthroat competition and a word making more money for themselves than they seem to have been making for a number of years past.

The new organization known as the Golden West Brewing Association comprises the owners of the Washington and Ancora breweries of this city and Krippler Brewery of Berkeley, the Pala brewery of Alameda and the Hansen brewery of Hayward.

The details of the consolidation cannot be presented because the parties to the organization were absent from their several places of business. It is understood that for some time past there has been a cutthroat competition among the brewers, which has resulted in the cutting of prices to the consumer to such an extent that there was no profit in the business. It is said that the new company will have a capital stock of $1,000,000, and that the brewers will be given stock in the new company in exchange for their plants.

NEW YORK July 14 —The largest grand stand in this country soon will be erected near Garden City L I, for the grand aviation tournament to be held there next October The structure will be fashioned somewhat after the old Coliseum of Rome being circular in form with each seat and box commanding a clear view of every part of the flying field It will be substantially built and designed to remain as a permanent fixture in a great national aviation park

If present negotiations are carried through a large tract of level ground will be leased there for a period of years and Garden City will become the central point for all great flying exhibitions in America All the important national and international events will take place there

LARGE CLUB HOUSE

Present plans also include the building of a large club house for the Aero Club of America This will be located within the main enclosure adjacent to the grandstand and will be used by all members of the Aero Club of America all the members of all affiliated clubs in the recently formed National Council of Aero Clubs

The subscribers committee named by the Aero Club of America to finance the 1910 meeting is raising $250 000 which will be used to put up the buildings and for cash prizes Wealthy men of New York who have been leaders in other popular sports are the most liberal subscribers

All sums subscribed are to be returned to the subscribers after the expenses of the tournament are paid and the profits are then to be equally divided

UNEXPECTED SUCCESS

MAN LOST $3250; WOMAN FOUND IT; THIEVES ROB HER

ST. LOUIS, July 14 —George Harvey, a farmer living near Duquoine, Ill, will recover $2250 out of $3250 which he brought to St Louis, wrapped in a salt sack and pinned to a trousers leg, last Saturday He lost it while walking along the streets, and his unique "safe depository" indirectly leaves him short exactly $1000

The report of Mrs Mattie Rich of 503 South Broadway yesterday that daring daylight robbers had taken $2 00 from her room at the point of revolvers led to the recovery

After she had related the story of the robbery with a wealth of detail, detectives found the money in a drawer of her dresser She was arrested and at police headquarters confessed that she had found the money near where Harvey lost it She admitted she gave part of the money to friends but did not account for the remainder Harvey offered $500 reward for the recovery of his money

PIEDMONT SCHOOL NEEDS ADDITIONS

Ten Thousand Dollars to Be Used for Making Improvements on Structure.

The Board of Education of Piedmont is expending an appropriation made by the Board of Trustees amounting to $ 0 000 for improving the Piedmont school on Bonita avenue Owing to the large increase in the number of pupils which this school is drawing it has been found necessary to add two additional rooms to the six room structure in order that the school may better handle the children who will enter with the opening of the school this fall

The growth of the school has been rapid as shown by the fact that the building which was erected a little more than a year ago was adequate to meet all the demands made of it at that time Owing to the foresight of the school board when the present building was erected it was so designed that should the occasion demand its extension additions could be made without fouling its general outlines

After the $10 000 appropriation is expended in improvements upon the playgrounds which Piedmont plans to put in shape it will be the finest school playground in the world

The work of the school commissioners on various occasions carried them to the outdoor rooms here the children make duplicates of furniture and pupils in caring for and tending small garden plots which rooms have been assigned to

'OF COURSE, WE'RE HAPPY,' CRIES MRS. AOKI

The Wife of Japanese Smiles Despite Evidence of Poverty in Her Home.

NEIGHBORS DIVIDED ON THEIR FRIENDSHIP

"We Will Welcome Everybody When We're Established," Says Woman.

LOS ANGELES July 14 —After a residence of a month in the city keeping closely within doors to avoid the curiosity of neighbors Helen Tokuyas Emery Aoki and her Japanese husband have been found

They were in an attractive two story house at 495 South Main street where they had moved three weeks ago under cover of darkness that they might escape the scrutiny of neighbors whose objections might have been aroused by the odd sight of this Japanese American family

Little Sophonia Frances Uta Aoki just a year old was beating her tiny tanned hands against a screen at a porch window Mrs John Emery the grandmother stood guard at the front door of the strange little family's place of refuge A few cart ins hung in the windows

HOUSE COMFORTS FEW

Outwardly the place looked cheerful Within the scant furnishings told a mute story of the new poverty that Aoki and his wife have been fighting against as they have been buffeted from one place to another because of unsympathetic neighbors

There were no bedsteads in the house The family sleeps on mattresses upon the bare floor Aoki is working in the city In a few weeks he said yesterday the interior of the house will take on a more comfortable appearance—that is if no opposition to the family develops in the neighborhood

A division of feeling for and against the family exists in the neighborhood The neighbors do not see much of the Aokis The two women spent most of their time indoors Aoki is the boldest of the family and sprinkles the lawn The lawn for a long time unoccupied began to look better after the Aokis moved in The change was so much for the better that Mr Sherer who lives next door found them desirable neighbors

The Aoki family asks no sympathy and accept none when it is proffered Offers of financial assistance meet the same fate

ABSOLUTELY INDIFFERENT

"I am absolutely indifferent as to what the people think about me said the young mother yesterday Why speculate upon that It does not enter into consideration in our little family We want to be left alone

We will no substantial assistance though we may need it she declared as she stood with the little black haired baby in her arms We are prepared to fight our own battles

We still cling to repeated Mrs Emery as she dandled up from her sewing asked if she was at work on baby clothes that would fit an infant much younger than little Sophonia We will buy everything we need The world has been hard and it has made us hard

Her assertions of the home are preceded by Mr Emery She has made no calls and has extended no invitations to neighbors to call Aoki goes to work all the morning and all attired He walks for with a jaunty air and he is commonly called of as a well dressed man

I see we cannot get into a quiet home he said I did not want to attract attention to ourselves but we have been driven from pillar to post We have been hounded by curious people We ask to be left alone that is all We know the Christians will treat us well we do not expect that but we think I am working and I intend to stay here and establish my self

MAY BE FORCED TO MOVE

Aoki plans for the present are only tentative

If all consistent sympathy for his wife and the baby exists among their neighbors a quieter talk has been established among the property owners It is more of a tradition than a fact Should it become operative no doubt they think Aoki may be induced to move on

Anti Japanese that the tract of land surrounding the Aoki house would attract the wealthy clauses were inserted in the original deeds setting forth that the property in the tract should be occupied by Chinese Japanese or negroes it should revert to the original owner Some neighbors in the locality who do not care to press the question of this color

It was with the understanding that no property was passing upon the little family that an offer of employment was made to Aoki

We feel certain they have not many of the common comforts said one woman neighbor Their house is practically empty why I don't believe they even have beds but just sleep on mattresses on the floor There has been no furniture brought in and the one couch they have Mrs Emery hammered and fixed out in the yard

NOT UTTERLY CHEERLESS

But if the house be poor, it has the living spirit of home Aoki himself washed the windows and they shine spotlessly Pale pink straight Japanese cotton blowing out over white muslin draperies in one bedroom denote a bit of cheer In the front upper porch crooned from the curious swings a white hammock and here sleeps little Miss Aoki

Nearly every day the girl is seen about the lawn playing with her American Teddy bear and a Japanese doll

When Aoki comes home dressed in an American suit of brown drab green tie and big felt hat and comes rushing up the steps the wife hurries to disarm the stern faced mother in law relaxes into a smile as she pats his shoulder and the baby stretches out its dimpled hands and coos smilingly Da-da.

Are you and Mrs Aoki truly happy now despite all your difficulties, and are you actually reconciled since the withdrawal of the divorce suit instituted at Reno was asked

DECLARES THEY ARE HAPPY.

The wife nodded gently and slipped her hand into her husband's as he replied, "There is more happiness in our family than in many others Some people don't think so but as soon as I am established here I will welcome any one into our home to see if it is not an ideal place Mother (turning to Mrs Emery) knows we are happy and all we ask is to be left alone and to live our own life"

From Mrs C C Pierce who with her husband for years has done much missionary work among the Japanese it was learned that the Aokis have ordered their household goods shipped from the north.

ROOSEVELT GLAD GAME IS KILLED

Declares in Outlook Fights and Pictures Are "Thoroughly Unhealthy."

NEW YORK July 14—Theodore Roosevelt has come out decisively against prize fighting and prize fight pictures In the current sheets for the Outlook of July 9 there appears a signed statement by the former President which comments with the following

I am sure that what has happened in New York will happen in the nation at large and that prize fighting will be put to a stop all over the United States in the Union Since it was stopped in New York conditions surrounding it have grown worse and not better The money prize fight for the sake of sport and not for the sake of gain has practically vanished The prize fighter now is a professional gambler and a corrupter of politics and politicians

The gambling has become the least of the evils connected with prize fighting The brutalizing effect upon the actual participants and upon the spectators is far worse Finally the prize fight has become the source of a large proportion of the criminal news in our newspapers

THOROUGHLY UNHEALTHY

The betting and gambling upon the result are thoroughly unhealthy and the moving picture part of the business has introduced a new method of money getting and demoralization In addition the last contest provided a very important display of professional athletes I sincerely trust that public sentiment will be so aroused and will make itself felt so effectively as to guarantee that this is the last prize fight to take place in the United States and it would be a admirable thing if some method could be devised to stop the exhibition of the moving pictures thereof

Mayor Gaynor will not move to prevent the exhibition of the Jeffries Johnson fight pictures in spite of the protests and appeals from the religious and civic organizations according to a statement issued at the Mayor's office late today

KANSAS CITY Mo July 14 A man arm in arm down the street the minister carrying their suitcases and Sheriff Hathaway walking close behind the Rev C D Sharpe and Miss Eunice Whitaker fourteen years old with whom he eloped from Schene Kans left police headquarters shortly to go back home

Those who watched the three as they left headquarters said that the girl face was more like that of a little woman struggling home after two honeymoon trip had ended

He Refuses to Budge Until Kissed Goodbye

DETROIT, Mich., July 14.—Determined not to budge a step until he had kissed his wife and little son farewell, Alexander Lisner, wanted in San Francisco on a charge of grand larceny, stood on the platform of the Michigan Central depot here today and refused to enter the train which was to take him back to the Pacific coast.

Mrs. Lisner and her son, Leroy, 11 years old, left San Francisco July 1 for Detroit, where they visited relatives. Lisner followed them, and when he arrived in Detroit was arrested. He was taken to the depot in charge of Detective Sergeant Dwyer of San Francisco and a Detroit officer.

Police Keeping Watch

NEW YORK, July 14.—New York police authorities will keep a close watch on all incoming trains and ferry boats in the hope of apprehending Dr. Hawley Harvey Crippen, whose arrest has been requested by the London police, and who is believed to have sailed from England for New York on Saturday last with Ethel Clare, once a French woman.

The five vessels whose passengers will have to be most carefully examined because of their departure from England on the day Dr. Crippen and Miss Le Neve sailed are the Montania, from Liverpool; the St. Paul, from Southampton; the Lucania, from Liverpool; the Minnetonka, from London, and the Kroonland, from Antwerp for Boston.

Just on the lines to arrive within 24 hours after the Lusitania, the flagship of the Cunard line, docks in the morning.

Police officials here say Crippen is known to have had a number of different names, and that he has been under surveillance for some time. Detectives Flynn and Tate, who are on the lookout for Crippen, have been instructed to shadow Miss Le Neve, should she appear without Crippen.

public with Miss Leneve, who, according to the police, was introduced by the doctor as Mrs. Crippen.

Neighbors of the Crippens speak of them as quiet people who appeared to live in prosperous circumstances. They occupied well furnished apartments in a house of 24 rooms. They did not mingle with their immediate neighbors, but from the number of calls at their home it was judged they had many friends.

Well Known Actress

Mrs. Crippen was very well known in vaudeville circles. She attended the meetings of the Music Artists' Guild, and at the time of her disappearance was employed by Miss Leneve as her stenographer.

The similarity in the fate of Belle Elmore and of Mrs. Charlton, who was recently murdered by her husband in Italy, is most striking. Both women were actresses who left their American homes to meet death by violence in a foreign land, and in each instance the police pursued the American husband to the shores of his native land. Porter Charlton was arrested at Hoboken, but in the absence of extradition treaty between the United States and Italy, specifically providing for the return to either country of a citizen of the other country who has committed a crime, he may do free.

Inspector Cuff of the London police, who is in charge of the Crippen case, is known as the British American detective who leaves no hole or witness of a crime unfilled. Inspector Cuff is also known as the detective who arrested Adolph Luetgert, the Chicago sausage manufacturer, who killed his wife and threw her body into a vat of caustic soda in the basement of his factory.

Known in San Diego

SAN DIEGO, July 14.—Dr. H. H. Crippen, wanted in the London police net on a charge of murder, is well known in this city, according to Chief of Police Wilson. Crippen, who is a graduate of a Philadelphia medical school, lived in San Diego for a short time about two years ago. He was employed as a dentist by Dr. Edwin Sayre, who has offices in the Union building. Dr. Sayre is now in Los Angeles.

Lived in Michigan

COLDWATER, Mich., July 14.—Dr. Hawley Harvey Crippen, who is wanted in London on a charge of murder, lived in this city for a short time about 1900. His wife, formerly Cora Turner, was well known in musical circles here. Crippen was employed as a patent medicine demonstrator. He left Coldwater suddenly, it is said, to escape arrest on a charge of forgery. His parents, Mr. and Mrs. Myron Crippen, still live here. A son-in-law, Stanley Martin, is also well known here.

Associated with Munyon

HEAD PHILLY, July 14.—Dr. Crippen, who is wanted in London on a charge of murder, was associated with Munyon in the manufacture of patent medicines. It was in this city that he met the woman whose name has since been linked with his. Yesterday it was learned that Crippen had left the employ of Munyon's Company about two years ago.

Often Quarreled

It was reported late today that Crippen had been a frequent visitor to Kingswood, in the West Central portion of this city. Neighbors say that Mrs. Crippen frequently suggested that she would dismiss her help. Miss Leneve and that Crippen had decided to dispense with the services of the woman. It often led to bitter quarrels between the doctor and his wife.

Police Keeping Watch

NEW YORK, July 14.—New York police authorities will keep a close watch on all incoming trains, ferry boats in the hope of apprehending Dr. Hawley Harvey Crippen, whose arrest has been requested by the London police, and who is believed to have sailed from England for New York on Saturday last with Ethel Clare, once a French woman.

The five vessels whose passengers will have to be most carefully examined because of their departure from England on the day Dr. Crippen and Miss Le Neve sailed are the Montania, from Liverpool; the St. Paul, from Southampton; the Lucania, from Liverpool; the Minnetonka, from London, and the Kroonland, from Antwerp for Boston.

Just on the lines to arrive within 24 hours after the Lusitania, the flagship of the Cunard line, docks in the morning.

Police officials here say Crippen is known to have had a number of different names, and that he has been under surveillance for some time. Detectives Flynn and Tate, who are on the lookout for Crippen, have been instructed to shadow Miss Le Neve, should she appear without Crippen.

BIG ALAMEDA COUNTY BEER MANUFACTURERS COMBINE

Get Together in New Company to Save Cost of Production and to Make More Profits on Steam Beer

(Continued from Page 1)

limit of the amount of the beverage required for consumption in one or more of the breweries in operation could be closed down, and that as a consequence, he would be a saving of the amount of money required to keep the breweries running in competition with the other institutions.

PATRONAGE FALLING

There was another condition considered in the connection, the fact that with the natural increase in the population in this county the past two years there has not been a corresponding increase in the number of persons who call for steam beer, which they attribute to the fact that many people have taken a notion that steam beer is not as wholesome as other beers. While this is not the fact, still the fact remains that the consumption of steam beer has fallen off, and the brewers have been compelled to reduce the output.

TWO BREWERIES TO CLOSE

It is understood that it is the intention of the Golden West Brewing Association to close down two of the breweries named, but up to the present time but one of the institutions has been dispensed with, and that is the Palace Brewery of Alameda, one of the oldest concerns of the kind in this county. This place has been inoperative for some time, and it has been alleged that its closing down has been occasioned by reason of the fact that Mr. Gourlay, the manager of the place, has for some time past been a patient in one of the local hospitals suffering from ptomaine poisoning, which resulted from eating clams at a picnic which he attended at Acampo some weeks ago.

PALACE SHUT DOWN

There is no doubt that the success of the combination has had something to do with the closing of the brewery, but at the same time it has been in contemplation for the past two years, and the Palace Brewery has joined in the combine with the others, as best for its interests.

According to her story the purpose of the combine is to develop the process of the output of the breweries which will be continued in the bottling department upon a profitable understanding. A reduction of the cost of each plant and the amount of business controlled by each plant and the permanency of a certain amount of work in the preparation of the product.

TO CLOSE ANOTHER

It is expected that before long there will be another brewery closed, and the consensus of opinion among people who are well informed in the matter is that the second brewery which will go out of commission will be the Anchor, which is situated at the intersection of Shattuck avenue and Forty-ninth street.

It will be readily seen that there will be great saving of expenditure among the operatives in the breweries, as also of drivers, horses and wagons, when three breweries with supply three crews, three sets of drivers and teams can do all the business now done by four crews, four sets of drivers and teams, and the same applies to the bottling department.

OWNED BY ENGLISH

The only brewery of importance in Alameda county which is not included in this combination is the Pacific brewery, which is the fourth largest brewery in the state, and which is owned by the Pacific Coast Company, a corporation of which all of the stock is held by English capitalists. The Pacific brewery has been in existence for the past twenty years, and has a capacity of 150,000 barrels per annum. It is said that the English owners have refused to sell out to the combine, and will continue to operate the brewery.

ARGUES SELF DEFENSE

Besides the chief witness stood in his own behalf at the shot which killed Charles Stuart Calhoun. Besides the defendant there were but few witnesses in the case. Among the latter was Mrs. Calhoun, who testified to the quarrel between her husband and Miss Besser, and to the shooting. Besides Mrs. Calhoun, Miss Besser and the defendant, Detective Sergeant Duke, who arrested Miss Besser, and Coroner Leland Bourn, who conducted the inquest, were called to the witness stand.

FATE OF BESSER IN JURY'S HANDS

The "Belle of Butchertown's" Slayer Asserts Self-defense in Courtroom.

SAN FRANCISCO, July 14. The case against Louise Besser, on trial before Superior Judge Dunne for the murder of Charles Stuart Calhoun, the well-known club man, was submitted to the jury this afternoon after a long argument by attorneys on both sides of the case.

Assistant District Attorney McNutt occupied the morning session in his closing argument on the evidence adduced during the trial, urging the jury to bring in a verdict of murder in the first degree. He argued that the killing was premeditated and deliberate, and that Miss Besser was actuated by jealousy when she shot Calhoun.

Attorney Dunne, for the defense, argued that the shooting was done in self-defense, and that Miss Besser had reasonable cause to believe that Calhoun was about to kill her when she fired the shot that killed him. He declared that Calhoun had threatened Miss Besser's life, and that he had a right to protect himself when he saw Calhoun reaching for his hip pocket, where he had been in the habit of carrying a revolver.

Judge Dunne will charge the jury tomorrow morning, and it is expected that the case will be given to the jury before noon. Should the jury not reach a verdict by that time, it will be locked up for the night, and will resume its deliberations Friday morning.

Mother Is Seeking Runaway Daughter

SAN FRANCISCO, July 14.—Mrs. Carl Doutte, Children's Humane Society worker, including Miss Doutte's assistants, Miss Doutte's brother-in-law and Miss Doutte's mother, left this city this morning in search of Miss Doutte's daughter, Miss Elizabeth Doutte, who disappeared from her home in Berkeley last Sunday. Miss Doutte left a note for her mother, saying that she was going to Los Angeles to join a theatrical company. Miss Doutte is said to be a beautiful girl, and is only 16 years old.

Father and Daughter Near Death in Hills

CHICO, July 14.—T. C. Anderson and daughter, Miss Myrtle, are home after wandering in the mountains of Siskiyou for three days and two nights without shelter or food.

They started through the forest along a trail from a logging camp owned by Mr. Anderson, and when they got set

Finally they struck the railroad track, followed it to a small cabin, from where they sent a letter. They then returned home. Anderson's son searched in vain for two days, but is lost relatives.

French Celebrate Fall of the Bastile With Big Banquet

ALPHONSE LEGER, who will deliver the address of welcome.

A grand celebration by the French residents of this city of the fall of the Bastile, which will rank in completeness and cost with any similar celebration of the kind which has ever taken place on the other side of the world, will be brought to a successful conclusion tonight. The exercises will commence at the house of Piedmont Park, which has been beautifully decorated for the occasion. In front of the grandstand will be a platform which will be illuminated by electric lights. Here will be promenades and the lights will be arranged in the colors of the nation.

A grand ball will be given this evening, which will be largely attended by members of the French residents both sexes of this city.

The supper will be similar to that given in French cafes. There is every reason to feel that the affair tonight will be worthy of the previous fetes and the occasion in whose honor it will be served. But with the same time it will be a delightful affair. Dancing will be indulged in by all guests, which will be followed by an address by Alphonse Leger, who will deliver an address. Twelve fine musical numbers will be rendered by Marseillais, which will include "La Marseillaise" and "The Star Spangled Banner" will be rendered by a quartette of vocalists. A banquet will be served by P. Galou, the president. Louis Bill, Percy A. Pivolle, E. Cazet, Miller and others. At midnight the orchestra and the entire assemblage will unite in singing the "Marseillaise" and the "Star Spangled Banner."

NEW ORLEANS, July 4.—A quiet Fourth of July formed a marked contrast here today to the celebration by the French colonists of the Fall of the Bastile. The usual display of fireworks by the Red Birds, sparkling Marseillaise, led a large portion of the population to remain in one of the local parks, while others sought the festivities.

EQUALIZATION ATTEMPTED IN COLE WILL

Daughters Declare William R. Was Awarded Ranch From Father's Estate.

Deeds Were to Be Distributed at the Family Meeting Last Sunday.

Mrs. Mary P. Cole, in the letter found after her death, attempted to equalize the inheritances of her children, according to statements made by the heirs today, who declared that William R. Cole, the eldest son, who is battling for control of his mother's estate, received a $15,000 ranch from his father's estate, while the combined inheritance of the other children was worth about $1,600. William Cole's ranch is now said to be worth about $30,000, due to the increased property values throughout the county.

Judge Wells today took up the matter of unraveling the counter claims of the children, but little light was shed on the subject, even after William R., Henry, Charles and Miss Lillian Cole had been examined on the witness stand. All of the children except William, however, expressed themselves as satisfied with the distribution of the estate as planned by their mother.

WOULD NOT PROBATE.

Miss Lillian Cole admitted on the witness stand that she did not intend to probate the estate unless it should be found that it had to be done. She said that practically all of the property had been transferred by gift deeds, which had been left in the hands of herself and her sister, Miss Kate Cole, together with instructions as to what to do with personal trinkets not covered by deeds or instruments of transfer.

Deeds to property on Twelfth street, next to the Orphan home, on the west, and to the family home, on College avenue and Derby street, she said, were made in favor of herself and her sister. They were also given 25 shares each of stock in the Oakland Bank of Savings. These properties were all delivered to them, but she admitted that subsequent to the making of the deed, but before it was recorded, her mother had mortgaged the realty, and said that the dividends on the bank stock went to pay the interest on this loan and for household expenses.

TO OTHER HEIRS.

The remaining nine shares of stock was to go to the other heirs, three to each Henry and Charles, one to William and two to William's daughter, Elsie.

At this point in the testimony, Attorney H. H. Countryman, who represents William, provoked a lively tilt with Attorney Welles Whitmore by saying that papers which were material in the case had been withheld, including the deeds by which Mrs. Cole had transferred her realty. In addition to the deeds to the daughters, as given, there were deeds giving property on Adeline street to her brothers, share and share alike, and deeds to San Francisco lots, worth about $1,000, giving half to the sisters and the other half, share and share alike. Whitmore heatedly denied that he had omitted to bring the papers with any intention of clouding the issue, when Judge Wells broke in with:

JUDGE CENSURES.

"I censure you for withholding these papers. I told you yesterday to bring all papers and records that would throw light upon what had been done in this estate, or what the estate consists, and would give the court the fullest information upon the matter now being heard. I yesterday cautioned you and your client for the manner in which this estate has been handled, and said at the time that I should think you would, for your own protection, seek to have everything done through the regular channels of law.

"I do not now intend to censure Miss Cole, for she probably thought that she was doing what her mother wished and that in so doing she was acting in a perfectly proper manner. But the court desires all the information possible."

RECESS TAKEN.

A recess was taken while Whitmore went to his office and obtained the deeds, but on his arrival it was found that he had failed to bring two certificates for bank stock, which he explained was an oversight.

Mrs. Cole explained that the deeds had not been delivered to her brothers because it had not been deemed best. It should assemble at the next session today. William R. Cole went there Saturday instead, and there was an approach to a scene between him and his sister, Kate, Lillian not being at home. He did not return Sunday, so the plan was spoiled and the deeds not delivered. Miss Cole testified that she had given up the deeds over to her attorney, Whitmore.

Charles S. Cole was on the witness stand for a short time. He said that he called Sunday at the family home in answer to his sister's request, read his mother's letter, which has been offered for probate as a will, and expressed himself as satisfied to abide by his mother's wishes. He reiterated the statement that he was satisfied from the witness stand, and repeated it in a conversation with a TRIBUNE representative after court had adjourned.

REPEATS TESTIMONY.

William R. Cole was next called to the stand and repeated his testimony of yesterday, in which he declared that Attorney Whitmore had told him (Whitmore) had made a will for Mrs. Cole about three years ago. He then repeated his statement of his visit to the family home last Saturday, and declared that he was informed by his sister Kate that Henry had received his three shares of bank stock, that Charles would get "practically nothing," as an arrangement had been entered into between him and the sisters to wipe out certain indebtedness. He further declared that his sisters had declared there would be no probation of the estate.

ADJOURNED CASE.

Judge Wells this afternoon continued hearing on the matter until August 2, when Mrs. Cole's will will come up for admission to probate. Charles Cole and Attorney Countryman had a spat as court adjourned.

"Who will pay the stenographer?" asked Court Reporter Thompson.

"I will," said Countryman.

"Better get your money right away," interjected Cole.

"What do you mean by that?" shouted Countryman.

"I have a right to give advice when I want to," said Cole, and the bailiff rapped for order.

FEARS HER HUSBAND HAS KILLED HIMSELF

C. B. WEST, who has been missing for two months and who is sought for by wife.

WOMAN COMES TO SEEK MISSING HUSBAND

Mrs. C. B. West Asks Oakland Police to Make Search for Loved One.

LEFT HOME SICK, AND WITHOUT FUNDS

Told Friends He Was Only in Way and Would Soon Be Rid of Trouble.

After making every effort to locate her husband, C. B. West, who has been missing from his home in Los Angeles for two months, Mrs. West arrived in Oakland today to prosecute the search for the missing man in the bay region, where he was last seen. The fear that her husband has committed suicide is expressed by Mrs. West, who is leaving no stone unturned in the search for her husband.

She filed by letter and through friends to locate him at first, and traced him to Oakland, but finding that her efforts were in vain, after learning this much, she has come to this city to direct the efforts of the police and detectives, and visit hospitals and morgues in the last desperate hope of finding out what has been the fate of her husband.

WAS CONDUCTOR.

West was a railroad conductor, but had been out of work for three months on account of ill health. Desperate, he finally left Los Angeles without taking money or clothes, and was not heard of again until he was met by friends in Oakland. He told them that he had been nothing but a burden at home, and that he would not communicate with his wife until he had obtained work. He declared that he was despondent over his life, and that if he had no success he would give up.

Mrs. West, who has left her pretty home at 157 Daly street, Los Angeles, arrived in Oakland today and took up her temporary residence at the Waldorf hotel on Broadway, and from there will direct the search. She visited Superintendent of Police Wilson this morning and afterwards spent several hours at the West Oakland yards of the Southern Pacific Company in the hope of finding that he had obtained work from the company. She will continue the search, and will enlist the police of Berkeley, San Francisco and Alameda in trailing West.

LEFT DESPONDENT.

West left his home in Los Angeles April 23 without giving any hint of his purpose other than the warning that he was despondent and hopeless. He was a man 44 years of age, and had suffered severely from rheumatism for some months. He is described by Mrs. West as a man of dark complexion, 5 feet 6 inches in height, weighing 175 pounds. He has dark hair, dark brown moustache slightly shot with gray, and has a strongly marked blue vein between his eyes that swells heavily when he becomes excited. His front teeth in the upper jaw are not in good condition, and he occasionally stammers slightly. When last seen he wore a gray sack suit, gray soft hat, black trousers and shoes.

Mrs. West declares that he had been

OAKLAND CHAPTER NOMINATES OFFICERS

Meeting, Similar to Primary Election, Held by Banking Institute; Full List Made Up

Oakland Chapter of the American Institute of Banking last night held its annual nomination meeting at its rooms in the Oakland Clearing-House building for the nomination of officers.

The nomination meeting is in the nature of a primary election, for the election proper does not take place until August 17.

Although a full list of nominations were made last night, other nominations may be made as the time set by the constitution for such a purpose does not expire until August 3. It is not probable, however, that any other names than those selected at last night's meeting will be offered. Following is the list of nominees.

For president—Charles F. Dunsmoor, Oakland Bank of Savings.

For vice-president—W. F. Morrish, First National Bank of Berkeley.

For secretary—L. H. Heacock, Security Bank and Trust Company.

For treasurer—S. C. Scott, Farmers' and Mechanics' Savings Bank.

For members of the board of governors—J. E. Gunsenor, Oakland Bank of Savings; Daniel Reid, Central National Bank; J. S. Kluegel, Union Savings Bank; O. Van Dyck, State Savings Bank; O. Eltzroth, Citizens Bank of Fruitvale; Frank Moyer, First National Bank.

BOARD OF GOVERNORS.

The board of governors will consist of five members and the voting at the election to be held August 17 will be restricted to that number. While it is recognized that all of the nominees are the pick of the membership of the chapter, there will be a sharp competition for the honor of serving on the board for no one can now forecast which one of the six put in nomination will be selected in the voting. What gives still more zest to the competition is that the two receiving the highest number of votes at the regular election will serve on the board for two years. All others will serve for one year only.

The election on August 17 will be in the hands of a nominating committee, which was appointed last night by the president consisting of John F. Hussler, Central National Bank, chairman; W. H. Anderson, First National Bank of Berkeley. The fear that his mind would give way, and she thinks that this may have occurred. She states that he has no enemies and no money when he left home, and she does not think that there was any probability of his being attacked or meeting with foul play.

Kelly, and O. Eltzman, Citizens Bank of Fruitvale.

A report in regard to the finances of the educational fund was made and the progress of the new year in educational work was considered.

SURPLUS IN FUND.

There is a good surplus in the fund, large enough, indeed to guarantee many lectures in the year's course. In addition to the surplus, the chapter gets an annual bonus of $300 from the Oakland Clearing-House Association for educational work. The lectures to the chapter are delivered by bankers and by professors of political economy connected with the various universities.

IMPORTANT WORK FACES COMMITTEE

Republicans to Hold Meeting When County Convention Will Be Called.

Chairman A. P. Leach of the Republican county central committee of Alameda county has called a meeting of that body for this evening at 8 o'clock, which is to be held in his office in the Union Savings Bank Building.

The other purposes for which the meeting will be held are as follows:

To determine the number of delegates entitled to seats in said convention.

To apportion the number of delegates to each election sub-division in Alameda count.

To draft a brief statement of the purposes for which such county convention is called.

To file with the county clerk of Alameda county, at least thirty days prior to August 16, 1910, a written petition signed by the chairman and secretary of the committee which shall contain the action of the committee on the foregoing purposes.

TECHNICAL TOPICS ARE DISCUSSED BY CHEMISTS

Interesting Papers Are Read by Delegates; Sodium Benzoate as Food Preservative Condemned

SAN FRANCISCO, July 14.—At the morning session today of the American Chemical society, which is in convention here at the St. Francis Hotel, the subject of smelter smoke was discussed by the division of industrial chemists and chemical engineers.

Papers bearing upon the various methods of eliminating the noxious fumes which are destructive to vegetation in the vicinity of smelting plants, were read by W. C. Keough, F. C. Cottrell, Charles Bakerville, Edmund O'Neill and several other members who expressed their views. Various other technical topics were considered at the other division meetings of the convention.

Yesterday the opening session of the sixty-second convention of the society was held. Although their journey here had been extremely harrowing as the result of the fatal wreck near Metz Tuesday morning, when the engineer and fireman of the train lost their lives, the chemists congregated early on the mezzanine floor of the St. Francis and passed a busy day.

LOCAL CHEMIST SPEAKS.

In response to an address of welcome by Arthur Lachman, replies of the local chemists, the president of the society, W. D. Bancroft, made an enthusiastic response, in which he hailed the future prospects of the state and predicted that the time was not far off when California would be the leading state in the Union in manufacturing.

Bancroft, who is the grandson of the noted historian of that name, is the head of the chemistry department at Cornell University.

Speaking in reference to the future greatness of this state, he said:

"There are some Eastern states which at present excel California in manufacturing industries, but the time is coming when California will surely lead. It has all the essentials. It has an unlimited oil supply for fuel. It has tremendous water sources for the development of power. It has a splendid sea coast, its harbors being among the best on earth. California ranks as a pioneer in this country in developing the transmission of long-distance electric power. It has done wonders in this respect, and will do greater wonders in days to come. The development of water power in France, which is often spoken of as remarkable, dwindles into insignificance when compared with California's achievements.

FACILITIES BIG AID.

"As chemists we are interested in California's possibilities, as the development of water power and manufacturing here concerns those who are engaged in electro-chemical industries. Although the use of electro-chemistry industrially dates back only twenty-five years, the products of electro-chemical industries in the United States now amount to $10,000,000 annually. California's advantages are not confined to its natural resources. Chilian saltpeter can be laid down in California more cheaply than anywhere else in the country at present, and it furnishes nitrate yield, which is the basis for a large number of chemical industries. California's facilities for obtaining electric power will help it materially to lead in manufacture. In the electric furnace, better steel can be made than in the crucible furnace.

"Consequently it does not require the imagination of an enthusiastic Californian to foresee the day when your hills will be covered with smokeless factories, while your slopes are covered with vineyards and your valleys with citrus groves. When California takes her place as the greatest of manufacturing states San Francisco will take her place as the queen city of the world, with New York, London, Paris and Peking as her tributaries.

"The American Chemical Society is glad to be here at the beginning of such an era, and we hope one coming may act as a definite agent to stimulate California's development."

Sodium benzoate as a preservative of foods was thoroughly condemned by H. E. Barnard, state food commissioner and chemist for Indiana. In a paper read by him he set forth the war which is being carried on against its use in that state. Barnard maintained that the use of the preservative was injurious to health, and that its use leads to careless methods of putting up foodstuffs and the use of inferior materials. Edward C. Franklin of Stanford University gave a few experiments with ammonia to show what could be done with it, and received a great deal of applause.

Yesterday afternoon the delegation was taken on an excursion on the Ocean Shore railroad, and in the evening a theater party at the Columbia theater was gotten up for the women. The chemists enjoyed a smoker at the Fairmont.

Issue Bench Warrant For Attorney's Wife

Mrs. Fred Thompson Sought by Police, Is Out on $3000 Bonds.

LOS ANGELES, July 14. — Justice Chambers issued a bench warrant today for Mrs. Fred Thompson who, with her husband, is charged with having received part of the $15,000 which Orlando F. Alforre, former clerk in the registry division of the Los Angeles postoffice confessed having stolen.

Mrs. Thompson appeared in court yesterday and gave a $3000 bond for her appearance later in the day, when the date for the preliminary hearing of herself and husband was to have been set. Since then detectives have been unable to find any trace of her.

Thompson, who was the attorney for Alforre, also has disappeared. He is being sought on the old warrant on which he was apprehended recently in Reno, whither he and his wife had gone to see the Jeffries-Johnson fight.

Prisoner Postmaster Is Totally Paralyzed

Apparently totally paralyzed August A. Lilljefelt, who is serving a six-months' sentence in the county jail for misappropriating United States postoffice funds, has been taken to Providence hospital, where his condition is pronounced serious.

Lilljefelt was postmaster on Alcatraz island. It was found he had been taking the postoffice funds in his charge and lending them to soldiers at usurious rates of interest. He was making a handsome profit of the business when discovered.

He was sent to the county jail January 6. Several days ago he was taken ill, the paralysis gradually increasing until it has reached a point where he cannot move a muscle or hear anything spoken to him.

Dr. Curdts, who has been treating him, pronounces the case a peculiar one. It is feared the patient cannot recover.

A rotund individual, crimson of visage and undeniably peeved, threw the sleeping car of the Overland Limited from the east into considerable confusion as it reached Winnemucca at breakfast time yesterday morning.

Mad clear through he was, and the discovery that the temporarily irate occupant of a berth, which it was found could not be made up until the matter of a full equipment of clothing had been adjusted, was none other than J. W. McClymonds, genial superintendent of local public schools, added to rather than cleared up difficulties. For, be it known, McClymonds tips the scales at a figure perilously near 300 pounds, and on him the average man's clothes appear in the light of a mere postage stamp.

CLOTHING STOLEN.

All rolled up and stuffed into a nutshell, the story, as the victim tells it on himself, has to do with a thief who stole that august gentleman's clothes while he slept the cherubic sleep of the infinitely just. The school superintendent did not awaken until the pangs of early morning hunger assailed him. He yawned, opened and shut his eyes and—reached for the habiliments of civilization in which he is wont to appear in public.

Alas and alack—they were gone. A thief, a miserable, contemptible thief, without one small drop of the milk of human kindness and consideration in his whole wretched carcass had stolen them, leaving McClymonds to emulate a cold and shivering Adam as he yelled in stentorian tones for the quaking porter.

HELP! HELP! HE CALLS.

It was only after long parley that the occupant of the closely curtained berth remembered that he still had a few things in his suitcase, but—as he naively explains it—they were hardly the garments in which he would choose to return to his native city after an absence of some days.

More thought and more discussion, and it was finally deemed expedient to send a call home for help. Accordingly, with many blushes and a revival of the temporarily eclipsed humor for which he is famous, the discomfited politician drew one generously rounded arm from the protecting folds of the blanket and the following message was dispatched to his son, Vance McClymonds, a practicing attorney of Oakland:

EMBARRASSED PARENT.

"Dear Vance: Some thief stole my trousers, suspenders, coat, shoes and shirt. Please send me a new suit to Sacramento, care of the conductor of Pullman car No. 4. Please don't forget, else I will be embarrassed. Your father, J. W. McClymonds."

Vance heeded the telegraphic plea and my special messenger sent a suit of clothing to his "embarrassed" father at Sacramento.

Superintendent McClymonds was on the way home from Boston, where he attended the convention of the National Educational Association. He asserts that the next time he travels, even if only to Melrose, he will sleep with his suitcase as a pillow.

WASN'T QUITE FUNNY.

"Naturally it didn't seem as funny at first as it does now that I am once more clothed in a proper suit," said McClymonds at his home here this morning. "I guess the thieves pitched my clothing through a window. Luckily they didn't get any money. I guess," and the school superintendent's eyes twinkled mischievously, "it's because I was coming home. On my way east they might have found considerable."

Good Fellowship Prevails at Luncheon

Jolly good fellowship, into which was stirred no little business, marked the regular luncheon of the Tri-City Rotary Club, which was held today at the Maison de l'Opera. Dr. W. C. Poole, who presided over the sumptuous table in the capacity of chairman, announced the subject of the meeting as "The Rotary Idea." He said in opening that the rotary idea is an idea of reciprocity, and it is through the means of such an organization that the club members hoped to be able to smooth the rough friction of every day business life.

Dr. E. R. Taft, the newly elected president of the club, who has just returned from Chicago where he attended the national convention of the Rotary Clubs of America as the delegate of the Tri-City Club, was then introduced by Chairman Poole. Dr. Taft, in a talk to the point, asserted that reciprocity was the principle of all modern business. He pictured the rapid growth of the clubs over the country where two years ago they were unknown.

D. E. Perkins, the next speaker, introduced a motion which was at once put through, indorsing the Oakland Chamber of Commerce in its efforts to obtain a new building of its own in which the organization and its exhibits will be permanently housed. The next meeting of the club will be held Thursday week at the Key Route Inn.

ONE MAN IS DEAD IN BIG PORTLAND CONFLAGRATION

Many Horses Burned to Death and Many Buildings Are Destroyed.

FAMOUS MULTNOMAH ATHLETIC FIELD RAZED

Loss in Property Will Total $300,000; Cause Is a Mystery.

PORTLAND, Ore., July 14.—An early morning fire in the west central portion of the city just on the edge of the business section of the city, resulted in the loss of at least two lives, the injury of several persons, the burning of 150 horses and a financial damage estimated at $300,000. The cause of the fire has not been ascertained and probably never will be satisfactorily explained, but the consensus of opinion is that it started in the salesroom of the Orange Brush company, which handles the Brush auto while in this state. The burned district covered approximately ten acres, but a large portion of this area was devoted to the athletic field of the Multnomah Amateur Athletic club, and save for a magnificent grandstand, capable of seating 5000 people, was practically unimproved.

As the result of this morning's fire the losses are approximately as follows:

Exposition building and its tenants, $75,000; Multnomah Amateur Athletic club, $75,000; Angelus Hotel, $55,000; Rowland Hotel, $25,000; George Baker (theatrical scenery), $15,000; Western Salvage company (furniture), $15,000, George Otten, florist, $10,000; residences and miscellaneous property losses, $40,000.

ONE REPORTED DEAD.

So far as known the only one dead is a man whose name is supposed to be Prud. It is reported that several other men, employes of the stable, are missing.

The fire started about 1 o'clock this morning in the old exposition building, an immense wooden structure on the south side of Washington street, extending from Nineteenth street to Twentieth, having a length of about 400 feet and a depth of 220 feet. The building was a ramshackle affair and burned like tinder. The flames spread with remarkable speed and soon the immense structure was a seething caldron. The terrific heat and sparks soon ignited the buildings on the north side of Washington street; a low wooden structure on the east side of Chapman street and Nineteenth and the magnificent building and plant of the Multnomah Amateur Athletic club, all of which were totally destroyed.

A westerly wind was blowing and that the fire did not extend east into the automobile salesroom and hotel and apartment house district was due to the efforts of Fire Chief Dave Campbell and the men of his department. Had the flames jumped across Chapman street into "automobile row" on Alder street the entire business section on the west side of the Willamette river would have been in grave danger.

125 MADE HOMELESS.

Several large apartment houses, several residences and a number of stores on the north side of Washington street were completely destroyed. It is estimated that 125 persons are temporarily made homeless as the result of the burning of these structures.

The exposition building was one of the land marks of the city. It was erected in 1887 by the Northern Pacific Industrial Association for the purpose of housing expositions and affording the people of Portland an auditorium. It was patterned after the old Mechanics' pavilion of San Francisco and in the early days was one of the magnificent structures of the Pacific Northwest and the largest. In its hey-day the exposition building was the scene of many social functions and when President Benjamin Harrison visited Portland about twenty years ago ten thousand people gathered in the big auditorium to bid him welcome.

MULTNOMAH FIELD NOTABLE.

Multnomah field in addition to being the site of some of the most important athletic contests on the Pacific coast, has, in late years, been the scene of notable receptions to men high in the councils of the nation, notably President Taft and W. J. Bryan. Here it was that President Taft on the occasion of his recent visit to Portland, reviewed the flag drill of the school children of the city, a feature of his entertainment in this city which he characterized as the most beautiful spectacle he had ever had the pleasure of witnessing.

When W. J. Bryan was campaigning in Oregon Multnomah field was the scene of the biggest demonstration accorded him in the Pacific Northwest. Fully 25,000 people gathered on the field to welcome and to hear his arguments in favor of "16-to-1."

R. M. Briare, lessee of the Metropole Hotel, has decided to give up the management of that hostelry. Mr. Briare has accepted an offer to take the management of the St. Mark hotel, and within a few days he will assume the duties as manager of that institution. Recently Manager Barker left the St. Mark for a more lucrative position. Mr. Briare has been lessee and manager of the Metropole hotel for a number of years.

Since leaving his home he has made addresses in all of the places which he has touched which includes Washington Oregon and Montana In speaking of the outlook for the party in the Western states Dr Watkins stated to us that he was favorably impressed with the growing feeling in Washington for the support of prohibition and he felt that there was much to be hoped for from this state

"Washington will accomplish great things in this work in the near future of that I am confident But the outlook in Montana is not so bright he said "There is considerable interest there in the work but as yet its great weakness is its lack of organization Of course I have not been in the field in this State long enough to be able to make any definite observations as to the progress of the work but from the reports that come to me the conditions are very favorable

NOMINATION PETITION OF CLAY FOR COUNTY ASSESSOR FILED

Bulky Document, Which Contained the Names of 2079 Electors Gathered From 149 Precincts of Alameda County

I H Clay today filed his petition for nomination as the Republican candidate for County Assessor presenting the bulky document containing the names of 2079 electors of the county at the County Clerk's office shortly afternoon

The names have been checked in the precincts of the 149 precincts of the county and show a most complete canvass The petition is one of the most complete filed in connection with the names in alphabetical order and precincts throughout being in ideal shape checking up process that the deputy registrars under County Clerk Cook must go through and showing expert political workmanship

POPULARITY IS SHOWN

Less than three weeks ago the canvass for signatures on behalf of Mr Clay was begun and the manner in which the petitions were signed was a great tribute to his popularity The spirit with which the blanks endorsing Mr Clay for the race were filled in is proved by the fact that it is seldom has been ready for filing a couple of days though he started long time after other candidates who are just now presenting their petitions In other words in one third or less length of time Mr Clay's petition contained the requisite number of signatures

An inspection of the roll shows that it is signed by men in all walks of life Labor workers of known ability those whose professional men by the score the most prominent business men of the city and wage earners testifying to the esteem in which he is held by all classes of men

ARMY OF DEPUTIES

A small corps of special verification deputies was put in the field and several of them report that persons have expressed the fact that they were inimical to sign Mr Clay's petition by reason of the fact that they had signed in behalf of some other candidate for the same office under the impression that there would be no opposition ticket in the field A number have asked if there was any way in which they could cancel their former signature and indorsement so that they might sign with their expression of allegiance to Mr Clay

Considerable interest was expressed by citizens who felt that they had been misled by petition deputies of other candidates who will oppose Mr Clay at the primary election It is the opinion of others that the signing of a nomination blank does not preclude the elector from changing his mind A number who were debarred from signing Mr Clay's petition for the reasons stated have sought advice as to this subject and have been informed that they have only sworn to by their intention at the time of signing to support the candidate to whose petition they appended their names on that if the advent of Mr Clay's candidacy at a later date caused them to change their intention they are free to vote for him at the primary election if they choose so to do

Whereas he has earned the confidence of his colleagues and of his constituents by his aggressive and efficient work in the legislative halls during said period and

Whereas just at this time Alameda county requires fearless independent and experienced representatives and

Whereas the principles and services judgment and experience of the person fit for continued development of this county demand that Senator F W Leavitt be retained in the Senate of California

Therefore be it resolved that the Alameda County Regular Republican Club that we give Senator F W Leavitt our hearty endorsement and pledge our services to do all in our power to secure his renomination and re election to the position of State Senator of the Sixteenth Senatorial District

POLITICS CUTTING FIGURE IN BOARD OF FREEHOLDERS

Slate of Proposed Officers Said to Have Been Framed, With Albert H. Elliot for President

The board of freeholders elected to frame a new charter will hold its first meeting for organization next Tuesday evening in the council chambers

Although virtually a non political body politics is cutting a big figure in its organization It is alleged that a slate has already been framed with Colonel Albert H Elliot for president and Roscoe S Gray for secretary Nominally there are nine candidates in the field for both positions For the office of president the candidates that are being named are J Harrison Clay former president of the Chamber of Commerce A G Gancher G C P Jr Albert H Elliot and H S Tompson William C Cline who got the highest vote at the freeholders election was among the first names as a possible candidate but he declined to run as he is a candidate for the Assembly

THREE FOR SECRETARYSHIP

Three candidates have been put in the field for the secretaryship Friends of Attorney Ezell Taylor have been working in his interest on the ground of his experience as secretary of the board of freeholders in 1898 which framed the charter now in force Taylor consented to serve if the board desired but he has positively declined to run publicly to get it Close to those members of the board of freeholders who have opposed Taylor's election on the ground that whether Taylor serves as the secretary or not he will have tremendous influence in the work of drafting the new charter the first board of freeholders will be confronted with

Harry C Wenth the secretary of the Oakland Home Association one of whose names is listed on the ticket namely E F Cumberlain is also a candidate On this ticket he is slated for the office of Governor

Hon W Engell attorney is also a candidate for the office but his prospects of election are no better than those of Wenth

GRAY SLATED FOR PLACE

Roscoe S Gray who is reported to be slated on the ticket for the office of San Francisco attorney resides in this city Gray is a son-in-law of the late Chief Justice Fox who served a term on the bench of the Supreme court

Gray was one of the most active members of the Greater Oakland charter convention whose nominees and platform were defeated at the polls by the Burke machine Gray's work on the floor of that convention seems to have commended him in the eyes of the freeholders especially being a lawyer he is also a skillful stenographer and the latter fact has caused considerable wagering for the office of secretary inasmuch as some of the members are in favor of having the whole proceedings of the board stenographically taken

CANDIDATES ACTIVE

But notwithstanding that it has become known among the candidates that it is his intention to remain neutral it does not prevent them from making active campaign and industriously button holing the members of the board

In an interview on the subject Councilman Elliot said

"The freeholders will submit a model charter Members of the commission plan to submit it only in outline but many important problems must be left with them since the very first is a problem in the arrangement of the wards and precincts the work of the abolition of the present cities and townships and many chapters elsewhere

"The charter must be returned to the council for publication at least 10 days before the election at which it is to be voted upon

"The election will be held on the first Tuesday in October and the charter must be published in full in the newspapers for 10 days before the election

W. E. DARGIE
President

Why Gifford Pinchot Is Coming.

The injection of Gifford Pinchot into the California campaign emphasizes Hiram Johnson's hostility to President Taft and the national Republican administration. Pinchot is a discharged government employe. He was kicked out of office by President Taft for writing a letter to Senator Dolliver, who is ranged in open opposition to the policies of President Taft, virtually charging the President with condoning official malfeasance and shielding officials who were betraying a public trust to serve private interests.

Pinchot is an enemy of the administration. He is an accuser of the President and his cabinet advisers. His charges and speeches are being used as campaign material by the Democrats. At every turn we find him consorting and connubiating with those who are striving to tear down the constructive work of President Taft and cast reproach on his good faith and integrity of purpose.

Why has this enemy of President Taft and traducer of his administration been imported into California to make speeches for Hiram Johnson? To draw to the Johnson standard every malcontent and every person with a grievance again President Taft. It is to call to Johnson's support Democratic as well as Republican enemies of the administration, and to emphasize the fact that Johnson's candidacy is a challenge to the official integrity of the Chief Magistrate.

But calling Gifford Pinchot to his assistance is entirely consistent with Mr. Johnson's attitude toward the President and the Republican majority in Congress. Johnson has denounced what the President has approved. He has lauded Pinchot and the muckrakers who are assailing the administration. The work of Congress and the bills signed by President Taft have come under his condemnation. He and Pinchot are prompted by the same motives, actuated by the same purpose. Both desire to strike down the Taft administration and discredit it in the eyes of the people.

Hiram Johnson has never once since he took the stump commended President Taft or expressed a desire for the success of his administration. All his references to the policy of the national administration have been directly or inferentially derogatory. But his course in this respect is entirely consistent with his utterances prior to his becoming a candidate for Governor, and in complete harmony with his political associations and the attitude of his chief supporters, all of whom have justified the attacks of Gifford Pinchot and his coadjutors on the President.

When President Taft came to California as the invited guest of the people of this State Johnson took occasion to insult him in a public speech reflecting on his honor as the Chief Magistrate of the nation. This was on the eve of the reception tendered the President by the citizens and public bodies of San Francisco.

Hence the coming of Pinchot serves to emphasize the hostility Johnson cherishes against Taft. It gives clearer significance to the fact that Johnson's success in the primary election will be heralded throughout the country as a rebuke to President Taft and as a repudiation of his administration. That is what Johnson intends it to be. That is why Gifford Pinchot is coming to take part in the campaign. His presence here will advertise to the country at large that Johnson's candidacy is being urged primarily to weaken and discredit the Republican national administration. It explains, in part, why the Johnson organs are making a wholesale attack on President Taft's appointees in California, and why the Senators and Congressmen who have given the President loyal and steadfast support are being roundly abused and with betraying the public interests.

Hiram Johnson says he is already sure of election. Then why is Gifford Pinchot coming from the east to make speeches for him? Why ask for outside help if he has the fight already won?

The Taft administration continues to do good work. The rural free delivery service is to be greatly extended. Rural free delivery is bringing good roads and the daily paper into all thickly populated farming sections.

Is the Door in China Being Closed?

It is stated by the Japanese minister of foreign affairs that the new treaty entered into between Japan and Russia will not negative the open door policy for China which Secretary Hay enforced and which became an article in the treaty of Portsmouth. Nevertheless, it is significant that the diplomatic agents of Germany appear to have been kept informed while the negotiations were pending when the American and British governments were kept in ignorance. A suspicion has been excited that Russia and Japan have sunk their differences and pooled their issues to the extent of dividing Manchuria between them and shutting everybody else out. If this suspicion be well-founded, it is not unlikely that Germany is a silent partner in the transaction. Such an arrangement would be extremely injurious to British and American trade in the Orient, and equally prejudicial to the rights of China which the nations have agreed to maintain, but which Russia and Japan show small intention to respect. It is worthy of note that Japan has tightened her grip on Korea at the moment of coming to an understanding with Russia in regard to the trade and transportation of Manchuria. Guarded expressions dropped in semi-official circles in Berlin indicate a belief in the Kaiser's realm that Germany has somehow secured an advantage over Great Britain by the new compact entered into between Japan and Russia. Any advantage gained over Great Britain in this matter would equally disadvantage the United States.

A. G. Spalding will hardly be elected United States Senator, but his candidacy will be worth the money as an advertisement for his sporting goods.

According to Hiram Johnson, Chester H. Rowell is the Republican party of California. He says every man who disputes the authority of Rowell or declines to support the candidates Rowell brings out is a slave of the Southern Pacific. The alternative he offers is quite simple—"vote for me or you are a crook."

A Lincoln-Roosevelt League organ says "Teddy Roosevelt, through Pinchot, endorses Johnson." This is a characteristic bit of mendacity. Roosevelt has not endorsed Johnson through Pinchot or anybody else. Pinchot does not say so. Roosevelt has never uttered or written a word to indicate that he is taking any interest in the California campaign. He writes regularly for The Outlook, a weekly review, but he has refrained thus far from saying anything about rival Republican candidates in California or any other State. Pinchot, who has been hanging around Roosevelt ever since the ex-President returned from Africa, says he is coming here to make speeches for Johnson, but he comes with no commission from Roosevelt. That, however, does not deter the pretended organs of light and purity from representing that Pinchot will speak for the former President. As though Roosevelt cannot speak for himself. But Pinchot cannot show any authorization to speak for Roosevelt.

Chinese Papers

Two years ago the Peking Gazette celebrated its millenary. Originally it appeared at intervals and in a very rudimentary form. Today it is modern, its diurnal publication being three editions. Great changes have been made in fifty years, and since the boxer rebellion the number and boldness of the newspapers have increased. There are seven different styles of writing, viz., the ancient, the literary, the flowery, the common, the "demi-vulgaire," the familiar and the epistolary. The papers for the people are printed in the common style and some have adopted the new alphabet sanctioned by the government. Greater reverence is shown to the press in China than in other countries. Old papers are never put to base uses; they are collected and burned in the pagodas. The Chinaman believes that profanation of newspapers is followed by blindness.—London Globe.

Twenty Years Ago in Oakland

City Wharfinger J. J. Pennypacker of the Fourth ward has brought suit against the city for the purpose of recovering $500 which he alleges has been withheld from him as wages in his present position. For the last twenty months, he says, he has been signing his name to a salary demand for $75 per month when the salary of the office was really $100, although he was informed that his salary was only $75 per month.

Sneak thieves did a great deal of harm at the fire at the home of Dr. J. M. Selfridge. They stole a pair of gold cuff buttons valued for their history. Priceless vases from Paris were spirited away and a lad was caught in the act of walking away with a cut-glass jar valued at $20.

The case of George C. Pratt against his wife, which has been pending in the courts for the past two months without action, probably will not be contested by Mrs. Pratt. The parties to the suit have arrived at a settlement and hence those who were waiting for a sensation at the trial of the divorce suit will be disappointed. During the past month many offers were made to settle the case by the plaintiff, but none of them were accepted until a few days ago, when Mrs. Pratt agreed to accept $2800 as her share of the property. It was agreed among the parties that their property rights should be thus adjusted.

Told About People

Mr. Thomas Hardy was 70 a few days ago, and we are pleased to know that he has not yet ended his work. Mr. Hardy is the only great man of letters we have in England today. We have men of good gifts and choice gifts, and we have plenty of talent and bits of genius. But that is all. Save him, all the great writers are dead in this country, and, what is more, there is no sure promise of anybody to take the place of the poets and novelists and historians who were still living and working less than a generation ago. "Will great originality be born again?" one may almost wonder with Renan. At any rate, its birth is being deterred and deferred. —London Saturday Review.

The blinking spectacles of Senator Bristow, who is a sort of assistant watchdog of the Senate, caught last Monday the second attempt to work in an appropriation of $1800 a year for a "trained masseur" for that body. This time the office was designated as "an attendant for the Senate baths." The Kansas statesman is strongly opposed to the Senate aping the luxury of the ancient Romans, for he fears that the decline and fall which overtook them will be our fate if we spend $1800 a year on a "trained masseur." He called attention to the fact that than no less a personage than John Adams, when he was President, was not above going down to the Potomac when in need of a bath, and he added that the river had just as much and just as wet water now as then. In those days the river was fringed with willows, and Mr. Adams dressed and undressed in the shelter they afforded. But surely Mr Bristow does not expect the Senators to follow Mr. Adams' example. Messrs. Aldrich and Nelson would not be safe in leaving their clothes on the bank. Some insurgent would surely steal them.—Chicago Tribune.

Gossip of English Celebrities

The venerable Earl of Wemyss, who was present at King Edward's funeral, was alive when George III. was on the throne, and has, therefore, lived under no fewer than six British monarchs. In spite of his ninety-two years he still evinces a lively interest in politics, while physically he is one of the most active nonagenarians of his time. He still occasionally drives his own motor-car, the mechanism of which he has thoroughly mastered. It is related that one day when out driving something happened to the motor which the earl's chauffeur could not remedy. Springly lightly out, the veteran peer crept under the car and quickly put the mechanism in order. When he was ninety Lord Wemyss was attending the House of Lords fairly regularly. He has sat in Parliament for sixty-seven years continuously save for an interval of six months.

Sir Robert Anderson, in his reminiscences published in "Blackwood," tells an amusing story of an encounter with a nursemaid while walking to his office. "I picked up a brooch, and I took it for granted it had been dropped by the nursemaid who was walking ahead of me. The trinket was what is called an 'O. U. duck' brooch, the vowels being intertwined in a cipher, with a little duck underneath. When I overtook the girl and asked if she had dropped a brooch, she answered as promptly, 'I think so, sir: what kind is it?' With a stolid face I replied, 'O. U. duck.' Oh, you go along,' she exclaimed with a toss of her head, as she jerked herself away."

So Lord Lonsdale, whose name has been much before the public lately in connection with the terrible disaster at the Whitehaven mines, which he owns, has been termed "England's best all-round sporting;" and there is not much exaggeration in the description, for his lordship rides, shoots, yachts, motors, and boxes, and is an expert slipper of greyhounds. His chief love, perhaps, is for horses. Back in the nineties Lord Lonsdale made a bet with Lord Shrewsbury that he would drive twenty miles in record time. In spite of the roads being covered with deep snow, Lord Lonsdale won. The road to be traversed was that between Reigate and Crawley. His lordship drove a four-in-hand the first five miles, a pair for another five, rode postillion of a pair for the next five, and made up the twenty by driving a single horse for the last stage, accomplishing the total distance in fifty-five and a half minutes.

The father of Sir Arthur Bigge, became King George's private secretary in 1901. John Bigge was an unpretending country vicar in Northumberland, and his sons owes his success mainly to a friendship which he contracted in the "Gunners" at Woolwich with the unfortunate Prince Imperial. He accompanied the Prince to fight the Zulus, and after the latter's sad death, Sir Arthur was sent for by the Empress Eugenie, who was then staying with Queen Victoria at Balmoral. The late Queen liked to surround herself with promising young soldiers with good heads for business and she appointed him Groom-in-Waiting in 1880. And so indispensable did he make himself that when Sir Henry Ponsonby died in 1895, Major Bigge was given his post as private secretary.

SAYS BAY CITIES WATER FIRM FOLLOWS STRANGE METHODS

John P. Irish Asserts That Property Owners Have Neglected to Take Proper Precautions

EDITOR TRIBUNE—The signers of the ten-year lien contract offered by the Bay Cities Water Company have neglected a proper precaution that should appear to every prudent property owner.

The Bay Cities Company has not in Oakland, nor Alameda and Berkeley, exhibited any map of any water-shed or source of any water supply, nor the site or sites of any reservoirs, nor of any right of way for pipes. All of these exhibits should be required in advance. More than that, the Bay Cities Water Company should exhibit them voluntarily. But instead of doing this it has sought ten-year lien contracts signed by property owners to tie up them and their property.

It is a method unheard of heretofore and does not belong to legitimate business enterprises. Suppose that the Key Route people, before they got a franchise, and before they had a boat or had laid a rail, had sent canvassers amongst the people on the east side of the bay asking them to sign a contract, so framed as to be a litigable lien upon their real estate, by which the signers pledged themselves to patronize the Key Route exclusively for ten years! Such a proposition would have caused the Key Route to be hooted out of town.

The representative of the Bay Cities Water Company admits that the contract will be a lien upon the real estate of the signers, but says that the company will not enforce the lien. This is a sinister promise, in view of the fact that the law takes no notice of a verbal amendment or addition or modification of a written contract. The signer is bound by the written text of the contract he signs, and when the lien on his real estate is to be enforced he will plead in vain that there was a verbal promise made that there would be no enforcement.

Good judgment and a desire to keep real estate free from expensive litigation require that the signers of the Bay Cities contracts insist that the contracts be rescinded and returned to them. If this course is delayed until the Bay Cities Company makes any expenditure, no matter how small, toward carrying out its part of the contract, it will be too late, for then the contract and lien will be legally binding upon the signers.

Revoke the contracts now and let the Bay Cities Water Company do as the Key Route Company did—put in its plant and if it suits the people they will patronize it. Very truly,

JOHN P. IRISH.

Judge Kreft Succeeds Wright as Referee

SAN FRANCISCO, July 14.—Judge Armand B. Kreft has been appointed referee in bankruptcy. Judge Harry M. Wright resigned. A big volume of equity business demands attention at the present time and Judge Wright, who is also Master of Chancery, found himself compelled to resign from the position which he accepted a week ago.

Judge Kreft was admitted to the bar in 1897 and served thirteen years with Commissioner Heacock and Judge Green. He has made a specialty of bankruptcy matters throughout his legal experience.

FOOD FACTS.

What an M. D. Learned.

A prominent physician down in Georgia went through a food experience which he makes public:

"It was my own experience that first led me to advocate Grape-Nuts food and I also know from having prescribed it to convalescents and other weak patients that the food is a wonderful rebuilder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and sick patients always gain just as I did in strength and weight, very rapidly.

"I was in such a low state that I had to give up my work entirely and go to the mountains of this state, but two months there did not improve me in fact, I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change. Then I began to use Grape-Nuts and in two weeks I could walk a mile without the least fatigue and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public."

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work miracles.

"There's a Reason."

Admiral Staunton Given New Command

WASHINGTON, July 14.—A number of changes in the assignments of the navy were announced yesterday. Rear Admiral S. A. Staunton has been detached from duty in command of the special service squadron and given command of the Fifth Division of the Atlantic fleet with the Tennessee as flagship.

Lieutenant G. C. Sweet, his aid, is among those transferred with the command. The special service squadron, consisting of the Tennessee, North Carolina and Montana, has just arrived at Culebra.

Commander Vanduser has been made captain of the New York navy yard, Captain B. T. Walling transferred from the New York yard to command the naval station at San Juan, P. R., succeeding Commander K. Rhorer, retired, and ordered home.

Commander Wright, who has been in command of the Guantanamo, Cuba, naval station and in command of the New York, has been ordered home.

Union's Secretary Is Sued for Funds

Suit to recover $500 of the money embezzled by William Rambo while treasurer of the Carpenters' union was begun in the Superior Court yesterday. C. K. Kelly, Edward Thompson and A. Wilson, as trustees of Local Union No. 36, United Brotherhood of Carpenters and Joiners of America, filed the suit and Rambo, R. Wiand and John Ristrem are the defendants.

Rambo is said in the complaint to have misappropriated $700. Wiand and Ristrem are on his bond. As it amounts to only $500 this is all that can be recovered.

The affair will be followed by a barbecue.

URGE CALIFORNIA'S PRODUCTS FOR CITY HALL

Effort Will Be Made to Build New Structures of State's Stone and Wood.

COMMONWEALTH RICH IN BUILDING MATERIAL

Officials Strongly in Favor of Plan and Will Work For It.

An effort to have both the new city hall and the proposed Chamber of Commerce building, the construction of both of which will be begun during the current year, built entirely of California products, is being made by the civic improvement bodies of Oakland.

The state is rich in decorative and practical woods, it is pointed out, while stone and granite are shipped from this coast to many eastern points. Steel, though not in as great a quantity as in the states nearer the Atlantic, is also manufactured here and glass, both transparent, stained and leaded, is turned out in Alameda county itself.

The project is receiving the warm endorsement of members of the Chamber of Commerce and similar organizations and a resolution asking the consideration of the matter will, in due course of time, be submitted to the city.

PROSPERITY'S SYMBOL.

It is proposed to make both the new city hall and the Chamber of Commerce buildings symbolic of the prosperity and resources, not of Oakland and Alameda county alone, but of the entire state.

Walter S. Mackay, president of the Chamber of Commerce, says of the plan: "I think it will reflect a lasting credit on the city and state if both the city hall and the Chamber of Commerce building can be constructed of California products. I have not looked into the matter with any degree of thoroughness, as yet, but I am under the impression that it will be possible to find everything needed within the state boundaries. I am heartily in favor of the scheme and if it is found to be impossible to carry it out in every particular, I think it should be enforced insofar as expedient."

RICH IN MATERIAL.

Alma A. Denison, secretary of the Chamber of Commerce, is even more enthusiastic. He says:

"California is rich in building materials. From various parts of it rich marble and stone eminently suited to the purpose of the new buildings could be obtained with less delay and less expense than sending East for them would entail. The state is noted for its beautiful woods and though there is a scarcity of hard woods, we have an assortment of other graces of lumber which would, I am sure, answer every purpose.

"I have not been authorized by the Board of Directors of the Chamber of Commerce to take any steps in the matter, but from a personal point of view I am heartily in favor of confining the large sums of money to be expended on the new buildings to the state. Bonded money should be spent with an eye to the interests of the community which furnished it.

FAVORS RULES.

"I am in favor at all times of rules which have for their object the expenditure of the people's money with the people. I should be glad to see both the city hall and the Chamber of Commerce buildings put up of California materials. They would prove lasting and valuable advertisements of the wonderful resources of this portion of the West."

The competitive designs and plans for Oakland's new city hall were placed on public exhibition yesterday at 65 Post street, one of the largest stores in the Mechanics' Institute building across the bay. The exhibition is given by the San Francisco Architectural Club, through the courtesy of Mayor Mott, and will continue until July 23.

MANY DESIGNS.

There are twenty-seven designs hung upon the walls, and the prize design, in its variety, is given a place of honor in the middle of the floor, where it was studied, criticised and generously admired yesterday afternoon by architects from all parts of the country.

These critics were heard to remark that there are at least three distinct features in the prize drawings—a nearly perfect execution, representing exquisite draftsmanship, beauty of conception, with harmony of design and proportions, and, above all, the solving of the problem of combining the idea of a monumental public building with that of a modern office structure.

This achievement is accomplished by placing a graceful, tall building of twelve stories in the center of a lower pile of three stories, which is given a classic and imposing character; and the tall building, standing back from the facades of the lower one, assumes the appearance of a tower without intruding itself upon the eye.

Fists Near Flying At Allendale Club

FRUITVALE, July 14.—Claiming that Deputy Registration Clerk George Manning was infringing on his district by appearing at the meeting of the Allendale Improvement Club Tuesday night and registering voters, and that by such action he was casting reflections on his own work, W. E. Sansome, vice-president of the club, is said to have provoked an argument that threatened to disrupt the meeting. In the heat of the argument Sansome is alleged to have threatened to throw Manning out of the hall. Matters were finally adjusted by the intervention of club members. Supervisor William Bridge, Constable William Allen and Assemblyman George Hans addressed the meeting. The election of officers of the club followed, resulting as follows: W. E. Sansome, president; R. R. Clarke, vice-president; L. Bergendahl, secretary; W. H. Locke, treasurer, and C. E. Dowd, sergeant-at-arms.

With every faculty alert and her mind as active as it was fifty years ago Mrs Keller is a living example of the theory that the longevity of life depends entirely upon the stomach the digestive organs

HAS BIG APPETITE

She has one surviving child Mrs D Hicks three grandchildren William and George Hicks and Mrs F H Milroy and four great grandchildren Walter and Gene Hicks Josephine Milroy and a seven weeks old great granddaughter as yet unnamed This baby is the daughter of her grandson George Hicks who married Miss Elizabeth Stumm of Berkeley more than a year ago

Mrs Keller's eyesight has not been impaired by age and her mind is as active as the time by taking fancy work in which she presents to her friends Her contrasts are vari colored and of fanciful design Many of them have taken prizes at church fairs both for their ingenuity and the neat hand they have displayed by the hands of a woman who has outlived the century mark Mrs Keller's hearing has been somewhat affected for several years but her mind is keenly attune to the persons around her that she hears with but slight relief of the voice She has been a widow for sixty years

FRIENDS TO HONOR HER

Friends of the high est one woman whose fame is a credit to her sex will celebrate beyond the confines of her home with one hundred candles on her birthday which she will blow out two weeks from Friday

Lord Northcliffe On Seasickness

Gentlemen:—Your letter of the 14th of September reached me on my return to England from a journey to Newfoundland and back, during which I have seen and heard abundant evidence of the fact that Mother Sill's Seasick Remedy appears to be, in nineteen cases out of twenty, an absolute cure for mal-de-mer, and also for what Americans call "Car-sickness." I have taken it on many occasions, with excellent effect and no after-effect. You are quite at liberty to make use of this letter, as I think it a duty to express my opinion on the subject. Yours truly,

NORTHCLIFFE.

CURES PARALYTIC WITH HYPNOTISM

New York Physician Uses Mental Suggestion to Restore Life to Man's Limbs.

NEW YORK, July 14. — Dr. Alfred J. Fox, of this city, believes that he is curing Conrad Schaumburg of infantile paralysis, a disease which, up to now, has regularly baffled physicians. The doctor has some reason for the faith that is in him too, inasmuch as Schaumberg, whose legs have been withered since he was a baby, can now walk short distances without crutches. Not the least amazing feature of the treatment is that the doctor is working by hypnotic suggestion.

Schaumberg, who is 27 years old, has suffered from paralysis since he was a baby. Many physicians had pronounced his case incurable. The upper part of his body is powerful and well developed but his legs are those of a child. Up to six months ago, he could not move them at all. Yesterday, when he appeared for one of his regular treatments, he entered his physician's office on crutches, but instead of swinging himself along in the old way, he moved one leg ahead of the other. He was placed on a bed and thrown into a hypnotic sleep.

"Now," said the doctor, "I will give you a drink of the most exhilirating nectar than ever man tasted. It will make you perfectly happy."

DRINKS WATER.

The doctor handed a glass of water to his patient, who sat up, drank it with apparent relish and sank back on the bed.

The physician then suggested to Schaumberg that this nectar was restoring circulation and building up the tissues of his legs; that his legs were as much in his control as any other part of his body. The patient moved his legs up, down and sideways on the bed. This treatment was continued for a time and then the man was awakened. He got up dressed himself, walked about the room without his crutches and departed, using his crutches only to help him through the hall.

Dr. Fox believes that in six months he will have his patient walking as well as anyone. He says suggestions at first had no effect on Schnumberg and there was no muscular movement at all in his legs. They were cold, dry and lifeless and measured but six and half inches in circumference. Now the doctor says they measure ten inches, have color and perspire.

TRIES PRAYER CURE.

KANSAS CITY, Mo., July 14. — Paul Bell, the young son of Eugene Bell, an unordained minister of the Church of God of this city, is suffering from infantile paralysis. In accordance with the father's beliefs the prayer cure is being tried upon the child. Members of the family or others of the church are gathered continually about Paul's bed praying.

Several days ago the boy was coming to the house from play when suddenly he began to drag his legs along. He became extremely weak. He found it impossible to raise either arm above a horizontal position. He went to the dinner table, was unable to eat and fell forward on his face. The case was diagnozed today as the strange infantile paralysis.

FIFTH CASE REPORTED.

TOPEKA, Kas., July 14. — Another case of infantile paralysis, making five in the State in the last month, was reported to the Kansas Board of Health yesterday. The victim is the 7-year-old child of Del Corning in Brown county.

The child is suffering from the disease in its acute form. Dr. S. J. Crumbine, secretary of the State Board of Health, sent notices to health officers yesterday that they must report to him all new cases of the disease.

A sixth case of infantile paralysis was reported to the State Board of Health yesterday. The four-year-old daughter of Eugene Bramball of Kingman county is the victim. Dr. S. J. Crumbine, fears that Kansas is to have another epidemic of the disease. Last summer 100 cases were reported. The first ones coming late in July.

MISS ELKINS WON BY WILLIAM HITT

Duke de Abruzzi Will Be Guest of Wedding of the Americans.

WASHINGTON, July 14.—The most notable wedding at the capital, promised for the early days of the next social season, will be that of Miss Katharine Elkins and William F. Hitt, son of the late Robert R. Hitt. The Duke of the Abruzzi will be one of the guests, it is said.

This announcement was made yesterday by friends of Hitt at the Chevy Chase club, and Miss Elkins' family will announce it when she returns from abroad in October.

Miss Elkins and Hitt were of the bridal party at the wedding of Miss Mathilda Townsend and Peter Goelet Gerry of New York, and it is said that the bouquet of the bride, as well as the piece of cake to be used "under the pillow," revealed that they would be the next to plight their troth.

Miss Elkins is abroad with her mother and Hitt is traveling with his mother, and both are following practically the same route.

Senator Elkins and former Senator Henry Cassaway Davis, father and grandfather, respectively, of the bride to be, are pleased with the match.

FRECKLES

July Is the Worst Month for This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in July, but happily there is also a cure for these ugly blemishes and no one need stay freckled.

Simply get one ounce of othine—double strength—from Osgood Bros., and apply a little of it night and morning, and you will see that even the worst freckles begin to disappear, while the lighter ones vanish entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all summer and spoil an otherwise beautiful complexion. Money back if othine fails.

Death Feared in Disappearance of Los Angeles Couple

GUS B. HILL AND WIFE DROP OUT OF SIGHT IN GREAT YOSEMITE VALLEY

Wealthy Bride and Groom Last Heard From May 30; Oaklanders Camped Near Them and Left Them Well

Has love's young dream been dissipated? Has accident been added to the grave instead of to a brownstone mansion? Will the mystery of their disappearance ever be cleared up?

These are a few of the questions which are being asked by well informed people of Los Angeles regarding the disappearance out of sight of Mr. and Mrs. Gus B. Hill of the southern metropolis, who have not been seen nor heard from since the 30th of last May. At that time Mr. and Mrs. Hill were in Yosemite.

Hill is a wealthy real estate man of Los Angeles. Three months ago he took unto himself a wife, a few years his junior, and off to Yosemite went the couple to grass the honeymoon amidst the commingled sounds of whispering pines and falling waters.

MANY THEORIES

The mystery still within the confines of the world's great wonderland where bridal bead floss has been extended to an absence of between two and three months, the failure of the couple to return has not yet explained. Friends have commenced to theorize and conjectures for the aim to bring the honeymoon to a close. One might have been drowning over a precipice, their bodies might have been claimed by the rapid and roiling waters of the Merced or they might have been swallowed up in the mazes of the trackless forest until overcome by exhaustion and compelled to lie down and die beyond the reach of succor of friends.

At all events the police of the whole State of California are endeavoring to solve the mystery of the disappearance. The last heard from the couple was through a letter written to the sister of Mrs. Hill which bore date of May 30. Two days before that, however, the missing man and woman were seen by two Oaklanders, J. W. Griffin, who is connected with Hardy's station, store on Broadway between Ninth and Tenth streets and whose home is at 1 Seventeenth street, and a friend of his, F. I. Stocking, who is connected with Oakland Paper Company.

The camp where campers in Yosemite at the time the Hills were there occupying a tent adjoining that of the couple in question and exchanging visits with the Los Angeles couple at one time.

KISSING BLARNEY STONE

F. I. Hills and Messrs. Griffin and Stocking became well acquainted and on one occasion when Griffin rescued a floating cap which belonged to the couple from Los Angeles. The cap had been blown into the Merced by the force of a strong wind and was passing in the swiftly moving current of the river. The latter which Griffin was compelled to assume at the time would have led one to the main which is within a few feet of losing his life for the purpose of rescuing the latter article of wearing apparel which Griffin succeeded in saving.

COULD NOT CARRY SUPPLIES

Griffin and Stocking left the valley the 25th of last May, a few days before Mrs. Hill wrote the letter which have been received from her by Cushan. The Hills, Griffin says, liked of taking long strolls and he says there was no possibility of their carrying with them supplies sufficient to last them this time in the mountains. Their supplies would have to come from the couple who have their home in the valley, no town being within many miles of the valley.

Spoke out last today, Griffin said:

"We left the couple at Illilouette Falls, a long distance from camp and we returned the conveyance and took a photograph of them.

"Mr. Hill seemed to be well acquainted with the people in the valley and paid visits to their tents. We noticed that they did not receive many callers at their tents. They kept entirely to camp but seemed to be exceptionally well supplied with all kinds of food, the cooking of which was done by Mrs. Hill and Miss Hill.

"Hill told us that I was in the collection business and that I was connected with one of the largest houses in that line of business.

"We were neighbors of the Hills for about ten days and when we broke camp to start home they were still in the valley. I still think it was hardly to the interest of the couple in question and exchanging visits with the Los Angeles couple at one time.

Excellent Boxwork of Baum Brings Defeat to San Francisco

BAUM'S CLEVER PITCHING DEFEATS THE LONGITES

Elongated Slabster Has the Goods, While Eastley Is Supported Like They Do in the Grass League

By BERT LOVRY.

SAN Francisco got another trumming in the hands of the Senators and that boy Charley Baum was the laddie that made the victory of Graham's men possible. True the Seals played the national game like a lot of girls from Vassar might and the support they afforded Eastley took all the starch out of that gent. At that Eastley deserves a whole lot of credit for sticking with the game when that bunch of Long's was giving such a sorrowful exhibition of how not to play baseball.

The first inning was gone through with smoothly and it looked as if Eastley and Baum were going to have a pitchers' duel for fair. Shinn, for the Senators, went out at first because McArdle made a pretty stop and peg of his poke to short. Fiddle Burns posed at the bat while Eastley threw three over the pan. Perry, fleet of foot, was passed down to first and landed at second because Claude Berry didn't make a very nice peg to second. Danzig raised three in a row, so Sacramento went to the field without a run. San Francisco sent Madden to the front to start things and he combed a pretty hit into right field, going to second when Mr. Briggs gave the hit a boot. Shaw hit to Heister in centerfield and went back to the bench. Oscar Vitt failed to get his optics on the sphere and also went back to the bench. Tennant pasted one that looked safe, but Danzig grabbed it and threw to Baum, who covered first base cleverly, retiring the side.

HERE'S THE WORST TALE OF ALL.

Boardman opened the second round with a line drive into right field. Briggs laid down a bunt for the purpose of sacrificing Boardman to second, but a fade-away peg to first base by Pitcher Eastley left both men safe. Heister came through with a single and Boardman registered with the first run. Mickey LaLonge spotted Titewadius sitting on the bench and showed his old boss that he could still hit by poking a line single into center, scoring Briggs and Heister. Charley Baum offered Tommy Tennant an easy chance but Tommy had the fozzling habit and both he and Mickey were safe. Shinn lined one into center that was good for two, but Bodie and the bases were full. Fiddle Burns hit a slow one to Vitt and Oscar's perfect peg to the plate LaLonge was out. Berry grabbed the ball and took aim at Tennant to catch Burns dashing for first. Maybe Berry saw Tennant walking on top of the right field fence or maybe he was up in the bleachers eating peanuts—anyway, the peg landed out it way somewhere and both Burns and Shinn crossed the plate before Melchoir could retrieve the ball. Berry chipped on at McArdle and was out at first while big Babe Danzig met a like fate when Eastley made a clever stop and throw of his hit to Tommy Tennant. That ended the inning with the Senators five runs on the score board.

SEALS MANAGE TO SCORE TWICE.

With one down in the sixth, Oscar Vitt slammed one safely into right and went up to second when Tennant went out Shinn to Danzig. "Ping" Bodie got his usual hit, a long double to the left field fence and Vitt was over. Melchoir lined to Shinn, who dropped the ball but recovered it in time to get his man at first. One run.

In the next round the Seals gathered another. McArdle picked out a bare spot in left and pulled up safely at second on the drive he made. Eastley hit to Boardman and was safely anchored at first before the gent could recover and get the ball there. Madden hit to Burns, who toed Eastley out at second, McArdle scoring on the play. Another run.

San Francisco looked dangerous in the eighth, when Vitt hit a scorcher at Baum but Spider was there with the one hand and got his man at first. In the ninth Baum passed Melchoir but made a clever stop of Berry's line drive, threw to Shinn, getting Melchoir, while Berry was caught before he reached first. McArdle popped up to Burns and it was all straight for the men from the capital and but two out of nine for the Seals.

Sidelights of the Game

Beavers are the leaders.

* * *

Defeat Oaks and go into first place.

* * *

Senators help by winning from Seals.

* * *

Dillon's men must also be reckoned as possibilities.

* * *

Eastley pitched well enough, but support was rank.

* * *

Charley Baum handled himself in clever style.

* * *

Seals were kept under cover nearly all the time.

* * *

All the Senators' runs were scored in the second inning.

* * *

Van Haltren umpired a very good game of ball.

* * *

Madden showed plenty of speed on the bases, but was weak with the big stick.

* * *

Shinn had a busy day at second base handling the hard-hit balls in his territory.

* * *

Madden gave Briggs his only chance and the Outfielder booted the hit in the opening round.

* * *

Eastley had Babe Danzig on his staff and fanned him twice with men on the bags.

* * *

Boardman and La Longe were there with the big stick, their four hits helping the Senators break into the run column.

* * *

The Seals have made nine errors in two games and fourteen hits, while the Senators have made five errors and twenty-three hits.

* * *

San Francisco has lost seven out of the last nine games played, which don't win pennants.

* * *

Danny Long hurried home from the wilds of San Mateo to stop the down rush of the Seals, but so far has failed.

* * *

Hugh Shaw made a fozzle of the brain on a play in the second round and was told to sit it out on the bench.

* * *

Eddie Burns played a swell short for the Senators, showing much improvement over his work of the day before.

* * *

But the extra base hits were scored by the Seals, Bodie getting one and McArdle the other.

* * *

Each pitcher walked two men to first, while Eastley fanned five and Baum fanned three.

* * *

The horseshoe was with Tozer in the Los Angeles-Vernon scrap in the south.

* * *

But pitchers up north worked excellently in the box.

* * *

Oaks grabbed but two hits all day, both by Swander, while Beavers got but three.

* * *

It was too bad Lively had to lose a game like that up north, after allowing but one hit in eight innings.

* * *

The Hassas back on the Oakland team and took part in the game at Portland in the ninth inning.

* * *

Locals played another errorless game, showing that they can sure field.

BEAVERS ARE IN LEAD FOR THE PENNANT

Seaton Outpitches Lively and Beavers Score a 1 to 0 Victory.

PORTLAND, July 14.—For the first time in many moons the Beavers are the leaders of the Coast League. Through quick thought and action McCredie virtually saved his club from defeat after one of the hardest fought battles seen on the Portland diamond for many days.

With the score 1 to 0 in Portland's favor when the get-away canto opened, Thomas batting for Mitze drew a base on balls. Lively hit to short and forced Thomas to second. Lively was safe on first and Wolverton put Christian on to run for the big fellow because of his speed. Swander forced Christian, but in trying for a double Casey threw the ball away, Swander going to second. Wolverton then walked and put Harkins on to run for him.

Manager McCredie thought he would do a little jockeying and then derricked Seaton in favor of his pet left-hander, Gregg. Wolverton immediately switched Maggart, a left-hand hitter and put in Hogan. Gregg walked Hogan but fanned Cameron, who hit from the off side of the plate.

Lively pitched a game that would have been considered great if it had not been outshone by Seaton's. Only three hits were made off the big fellow, but two of them came in the first inning and yielded the only tally of the battle. Ryan opened by bouncing one over the pitcher's head. Olson sacrificed him to second and Rapps lined a long single to right that scored Ryan and really won the game.

BALLPLAYERS OF BUTCHERTOWN WILL MEET ON DIAMOND

On Sunday, July 10, a game of baseball was played between Oakland Meat Company and Grayson-Owen Company for the championship of Butchertown, Oakland Meat Company winning by a score of 9 to 6.

Monday the claim of championship was disputed by Mr. F. Cames of the firm of F. Cames & Co., who said he had a team that would beat the Oakland Meat Company, and was willing to back his assertion with money, so after a great deal of talk a game was arranged between teams representing Oakland Meat Company and F. Cames & Co. for the championship of Butchertown and $250 a side, money to be given to umpire before the game. Notice of game will be given in future.

SEALS ARE RAPIDLY GOING DOWN THE LINE

Ewing's Hired Men Have Taken Awful Slump, Winning but Two Games Out of Nine Played

SAN FRANCISCO is certainly playing a sorrowful game of baseball these days and the supporters of the team are crying "help" in loud and strenuous voices. "What is the matter with the Seals?" is the question that is being asked on all sides, with no one to give an answer. Sizing up their playing during the last two games the trouble with the Seals seems to be nothing more nor less than a slump. That string of defeats in the south coupled with a lot of hot weather took the starch out of the team and they haven't got back to earth yet. True, their playing in the last two games has been most bushy and some of the plays pulled off have been decidedly yellow. For all of this we should not take any of the fame or glory away from the Senators or Angels. The first-named team has taken a wonderful spurt, maybe only temporarily at that, but still it is a spurt and their playing is far better than the writer has seen them perform in many days. The pitchers, too, are showing their real worth and no man deserved to win more than did Hunt and Fitzgerald Sunday, Whalen on Tuesday and Baum yesterday. These four pitched real baseball and gave proof that with proper support and few hits behind them they can win more than they can lose.

Again, we must allow that San Francisco is crippled just as Oakland was when they took that slump of theirs. With Lewis out of the game and Mohler under the weather San Francisco is weakened. Yet we must not overlook the fact that the rest of the teams of the Coast League are some class them elves, no matter which one you might mention.

* * *

"Hunky" Shaw got in bad with his manager right at the start of the game and was benched before he had a chance to warm up properly. In the second inning Shaw made a poor play and then tried to lay it on the pitcher. Long went after him red-eyed and told Shaw that he would much prefer to see him on the bench during the rest of the game. Mohler wasn't in the best of health, still he went over to second and sent Vitt to third, but all the damage had been done, so the change made little difference in the events that afterward took place.

* * *

Charley Baum pitched a first-class game of ball for the Senators yesterday—in fact his work all the season, with one or two exceptions, has been ace high. While the Seals got as many hits as did the Senators off Eastley, Baum kept his better scattered. In fact the Seals found him but three times up to the sixth inning. His fielding was clever, too, and he was never in real danger from the San Francisco outfit.

* * *

Frank Eastley deserved a better fate than that which he received yesterday and had he dropped the game by the real score he might not feel so bad about it. The way the Seals performed was shameful and the fans were much disgusted. They are a funny lot at that—the fans, I mean. Let the club be winning and they are the best fellows in the world, but let the boys strike a slump and bingo! what a choice collection of fan language is hurled at the players.

* * *

Mickey LaLonge is getting to be some slugger and is fattening his batting average immensely these days. Three hits on Tuesday and two yesterday has brought the bloom of youth and the smile of content to the handsome face of the gritty little backstop.

* * *

Charley Graham and Tommy Tennant started to hurl the caustic language at each other in the second inning and greatly amused the fans with their chaff. As Graham's outfit tallied five runs in that spasm the Capital City man had all the best of the argument.

* * *

Deacon Van Buren couldn't stand the strain to his Charley horse and watched the game from the grandstand. Heister, pitcher, third baseman and general all-around fill-in man, held down the Deacon's Station and performed in a manner satisfactory to all hands.

* * *

Van Haltern gets a boohoo now and then from some disgusted fan, but for all of that the old fellow is a pretty good umpire. Because he don't see them as the fans sees them is no sign that the ump is in error. Umpiring is one of the worst jobs in the world and to get men that are perfect in the business is next to impossible.

* * *

Next week is going to be one big banner seven days in the fans' supply of baseball, for those two fighting teams, the Oaks and Angels, hook up here for a series of seven games, that is two at Oakland and five at San Francisco. Without predicting Los Angeles is coming north nearer the top than they have ever been before and Dillon and his fighting Murphy, Daley, Nagle, Delmas, Bernard and others, are going to try mighty hard to squelch the Oaks. And the Oaks, Lord a' massy! but they are chafing under those stinging defeats administered down south a couple of weeks ago and Wolverton's men are just itching for the chance to show what they will do to Dillon's men.

* * *

Fred Baymer, the second sacker of the Senators, is getting on nine at the Fabiola *Hospital, and expects to be out on the* street within a few days. It will be a long time before he will be able to again take up his position for he will be under the weather for at least six weeks. Again blows like that generally take all the starch out of a man and sometimes they never do come back.

* * *

Eastley was excited to such a degree when he took the bat in the third inning after that disastrous previous round that he did not know what he was at the plate for. Baum cut loose with a wild pitch that struck a foot in front of the plate, still Frank struck at it with his bat and then smiled when he saw what he had done.

* * *

It is too bad for the Seals that Outfielder Madden can't find that batting average of his. The youngster is a clever outfielder and a speedy, heady man on the bases, but he can't hit. Maybe the youngster is having a slump just like all good men do and that in time he will find the lost batting optic. He is a quiet, unassuming man, who plays ball to win and the writer for one would like to see him make good.

LOS ANGELES, July 14.—Uncle Frank Dillon and "Hap" Hogan clashed on the field of battle again yesterday, and it was the leader of the Villagers who limped away at the finish.

Toze, although he was wild and unsteady, outpitched Willett and won his game by 4 to 2. The Angels bunched three of their four hits in the fifth inning when they scored three runs. The Dillonites played an errorless game behind Tozer.

The Angels went after Willett in the first inning, scoring one run on a wild throw through the first base territory by Willett, passed ball by Brown and a costly boot by Roy Brashear.

Brown's two-base wallop over Murphy's head in the second scored Roy Brashear, who had been walked by Tozer. This tied the score, it remaining in a knot until the Angels gave Willett the hard hammering in the fifth. In the eighth the Villagers made a bid for the game when Stovall started trouble with a single into right field. N. Brashear sacrificed Stovall to second and Bert Coy walked. Roy Brashear forced the runner at second Stovall reaching third. Roy then tried to steal second and during the melee in connection with the running down of the big second baseman, Stovall sneaked across the plate.

NEGLECT

In my very extensive practice I have learned that the VERY SERIOUS and so-called incurable cases are due usually to NEGLECT AND DELAY. Again I know that many men suffer for YEARS and practically RUIN THEIR HEALTH FOREVER trying to dose themselves with some patent nostrum that never could cure. The last state of the man is worse than the first. Just before you go a line further in this announcement stop and ask yourself as to whether YOU are following in the foolish steps of the man who NEGLECTS himself. Are you trying to cure yourself with nostrums? If you are, it is certain that you will regret it. It is NEVER TOO LATE to get in the right path but at the same time remember that you CANNOT GET THERE TOO SOON. I offer you my treatment at a cost as low as is consistent for the services rendered.

I AM ALWAYS WILLING TO WAIT FOR MY FEE UNTIL A CURE IS EFFECTED.

WOMAN WINS HARD FIGHT FOR SEPARATION FROM MILLION-DOLLAR FORGER

Mrs. Jessie R. Van Vlissingen Awarded Complete Divorce From Convict; Husband Will Fight Verdict

CHICAGO July 14—After a fight in the courts of Cook county extending over several months Mrs Jessie R Van Vlissingen wife of Peter Van Vlissingen convicted of forging notes to the extent of $1 500 000 and now serving a term in the state penitentiary at Joliet was granted a complete divorce from her husband yesterday in the Circuit Court The divorce was stubbornly contested by the husband through his attorneys, who immediately after the granting of the divorce announced that the case would be taken to the Appellate Court

Mrs Van Vlissingen by the terms of the decree, is permitted to resume her maiden name Jessie R Blend

The divorce complaint was based on the specific grounds that the husband had been convicted of the crime of forgery The action was contested on the ground that Mrs Van Vlissingen knew of her husband s forgery before she married him as she had been his stenographer for years before the marriage

Mrs Van Vlissingen brought two witnesses who testified that Van Vlissingen had told them after his confession that no one knew anything about the forgeries but himself and that his wife knew absolutely nothing about his thefts

Nobility Seeks Her Hand

NEW YORK July 14—Miss Margaret Rutherford, the young woman whose beauty and wit captured Kermit Roosevelt will some day come into millions and if the young son of the former president succeeds in winning her hand he will do so only after vanquishing a host of impecunious princes and counts of the Old World who are swarming around her in Paris

She is the daughter of Mrs William K Vanderbilt Sr and as such will inherit a large slice of the Vanderbilt fortune Her mother has been married three times—the first time to Samuel S Sands Jr and second to Lewis Morris Rutherford Jr and lastly to W K Vanderbilt Sr

All three of the husbands of Miss Rutherford s mother were millionaires and so the young woman is one of the greatest heiresses in American society

One of the hardest features of Miss Kendall s job is to refrain from listening to conversation and butting in' but she is a good' operator and they never think of doing that

Conscience Prompts Return of Loot

CINCINNATI O July 14—Perhaps the strangest story of a restitution of stolen funds due to the conscience of the taker is shown in the case of an unknown girl in Louisville and Miss Irene Tedesche of Cincinnati, who is now with her sister Mrs F H Philpson of Chicago

A letter for Miss Tedesche reached her home in Cincinnati July 10 from this Louisville girl She told how she had stolen $3 40 from Miss Tedesche s pocketbook when they were both attending the University of Cincinnati two years ago

She said that since that time she had been unable to sleep Therefore she wants Miss Tedesche to accept $300 in place of the stolen money saying that she invested the money she stole and that it has come back tenfold However she says she cannot keep with the knowledge of her crime on her brain

Miss Tedesche s parents say that when their daughter returns they will give her the money The girl in Louisville gave neither name nor address

Scorned Woman Kills Herself

RENO Nev July 14—After suffering a day and night from the effects of bichloride of mercury swallowed with suicidal intent Mrs Eleanor Gross a woman well known in Goldfield died yesterday She is said to have a divorced husband and 19-year old son in Sacramento and to have relatives at Eureka Cal On Saturday Mrs Gross who is said to have loved A O Apple of Goldfield, visited Apple s home and it is stated, he told her they must separate

Sororities Extend "Rushing" Season

STANFORD UNIVERSITY July 14—After fighting for a number of years for the longer rushing season the three older sororities have finally been successful and the younger crowd have joined them in lengthening the rushing season from five to ten weeks This will mean that the bidding day will fall on about the 20th of November instead of in the early part of October

No more will the sweet girl freshman be accorded the hearty reception that she has met previously Instead of a long series of automobile and dancing parties she will have to be content with the smallest favors that the sorority girls are willing to bestow upon them The decision was made by the Pan Hellenic Association, which is composed of a girl from each sorority and which makes the rules and regulations under which the sororities may rush during the coming season

What move the newer sororities will make is not known but they probably will fall in line with the others

Saves Mrs. Clews From Sea

NEWPORT R I July 14—Mrs Clarence W Dolan of Philadelphia and Newport who is one of the most charming entertainers in the cottage settlement proved herself a clever swimmer and life saver at Bailey s Beach Tuesday at the time when the surf was high and rough

As Mrs Clews felt herself going down she called for help Mrs Dolan swam quickly to her side and with a supreme effort assisted her to the sands Later Mrs Clews departed from the beach in her carriage and was taken home

Mrs Dolan evidently said nothing of the event but others who had seen the rescue were later in the day offering Mrs Dolan congratulations

'HOO-HOO' QUERY BOTHERS POLICE

Woman Calls Words at Neighbor and He Wants Her Arrested.

MELROSE July 14 — What does Hoo hoo mean?

If some one said such a thing to you would you feel insulted or complimented?

These are the questions the Melrose police are attempting to answer and Webster s unabridge throws no light on the subject

The question arose through the complaint of William Gutzmann who entered the station yesterday and complained to Station keeper Gilbert that his next door neighbor Mrs K Swanson had called Hoo hoo to him as he was leaving his residence 1291 Fortieth avenue Gutzmann was offended and asked that the woman be arrested

The matter could not be decided by Gilbert and the failure of the dictionary to throw any light on the true meaning of Hoo hoo caused the bewildered station keeper to give up in despair Gutzmann was referred to the District Attorney who will have to decide whether the application of the term to one s neighbor is sufficient excuse for the issuance of a warrant for disturbing the peace Gutzmann was arrested last week upon complaint of Mrs Swanson on a disturbance charge

HUNTINGTON BUYS BAKERSFIELD ROAD

Los Angeles Street Railway Magnate Said to Have Purchased Line.

FRESNO, July 14.—A well-confirmed report reached here from Bakersfield today is to the effect that the street railway system connecting that place with Kern City has been purchased by the Huntington interests of Los Angeles. The report also has it that A. G. Wishon, manager of the San Joaquin Light and Power Company in this city, which is also owned by the Huntington people, has been selected as the new manager for the Bakersfield system, and that he will divide his time between the two places.

Wishon, when seen in this city today, partially confirmed the report of the purchase, although he refused to make any statement for publication in regard to the matter.

OWNED BY TEVIS' INTERESTS.

The Bakersfield street railroad system was originally the property of the Tevis interests, but later a portion of the stock passed into the hands of John Martin, the San Francisco corporation man, and Frank Drum of Oakland, head of the concern which built the Yosemite Valley railroad.

The San Joaquin Light and Power Company is already engaged in building a great power dam in the mountains to the east of Fresno in Crane Valley, and since the reported acquirement of the Bakersfield system the general impression among those in a position to know is that work will be started on a dam and power house on the Tule river in Tulare county, where the company already owns a site.

SHIPPERS TO FILE DAMAGE CLAIMS

Decision of Interstate Commerce Commission Is to Be Followed by Action.

CHICAGO, July 14.—Shippers in the Missouri river territory are preparing to file with the Interstate Commerce Commission reparation claims aggregating $500,000 based upon the decision of the commission and of the Supreme Court in the Illinois-Hanna-Munger rate case.

The claims will date back to October 10, 1908, and the shippers will endeavor to collect the differences between the rates charged by the railroads and the rates which were prescribed by the commission and the courts. These differences amount to from 3 cents per 100 pounds on first-class commodities to 1 cent on the lowest class, and apply to all shipments that have been made from all territory east of Buffalo and Pittsburg to the Missouri river cities.

It is admitted that the shippers may meet defeat in the attempt to secure reparation, as, when the case was begun before the commission, reparation was not requested.

Postal Receipts on Rise, Records Show

WASHINGTON, July 14.—Postal receipts at fifty of the largest offices of the United States during June showed an increase of 9.67 per cent over the same month last year. The receipts of June, 1909, were 12.58 per cent greater than in June, 1908. The total receipts at these fifty largest offices last month amounted to $3,886,189, compared with $7,919,811 during the same month in 1908.

Of these cities the ones reporting the largest increase were Hartford, Conn., 29.70 per cent; Los Angeles, Cal., 22.99 per cent, and Jersey City, 20.71 per cent.

Only five of the fifty cities reported a decrease in receipts, as follows:

Seattle, 4.60 per cent; St. Paul, 2.99; Brooklyn, 2.41; Chattanooga, 1.56, and Salt Lake City, 1.30.

THE METAL MARKET

Copper weak; standard spot and September, 11.50@11.90c.

Silver, 54¼c.

STRONGER MARKET ON BUYING ORDERS

Increased Demand for Copper Stocks Have Strengthening Effect.

NEW YORK, July 14.—There was little activity in the opening dealings in stocks today and price changes were correspondingly small. Gains were the rule, extending to ⅜c in Canadian Pacific and ⅝c in St. Paul.

A strong tone developed when moderate buying orders were executed in the market leaders. An increased demand for the copper stocks also exerted a strengthening effect on the market. After a score or more of stocks had been advanced a point or over the purchases began to slacken and the list became dull and uneasy.

NORTHERN PACIFIC UP.

Northern Pacific rose 1⅜, Union Pacific 1⅝, Reading and Missouri Pacific 1¼ and St. Paul, Northwestern, Chesapeake and Ohio, Amalgamated Copper, Anaconda, American Smelting and United States Steel ¼. Soo line declined 2¼.

The absence of selling pressure in the stock market gave it the appearance of being oversold, as described by the traders.

Effective demand appeared at any recessions, although there was occasional hesitation and great dullness on advances. Reading was carried 147. Norfolk and Western rose 1¾, Iowa Central preferred 1½, Consolidated Gas 2¼, United Railways and Investment 2¾ and the preferred 2¾.

A brief interval of selling wiped out the day's advance in St. Paul, Union Pacific, United States Steel and Amalgamated Copper, and left little of the earlier improvement. Dissatisfaction with the meagerness of the demand accounted for the selling orders.

The market closed strong. Attempts to secure stocks at the decline again developed a scarcity of offerings and in the last hour prices were bid up easily to the highest of the day. Reading and American Sugar rose 2. Delaware and Hudson 3, North American 2⅝, Anaconda 2½, Atlantic Coast Line 2½, Union Pacific 2¼, Rock Island preferred 2¾, and Laclede Gas 1⅝. Great Northern Ore Certificates declined 1 and Toledo St. Louis and Western preferred 1¾.

NEW YORK, July 14.—Action of the market yesterday and the character of buying convinces me that the market is at the turning point. Recent decline has been unwarranted and recovery will be rapid. Would buy all good securities for a material advance regardless of temporary fluctuations.

Northwestern Miller—The wheat crop in three states is spotted to an unusual degree.

At present the figures ventured are around 165,000,000 bushels for the three states. However, in the light of some of the men in the trade this figure is too high. For the yield to reach 165,000,000 bushels, favorable weather will have to prevail from this time on.

With rains over Minnesota and South and North Dakota during the last three days the drought has been broken and to a considerable degree the situation has improved. The rain will not cause new growth in wheat, but will contribute materially toward filling kernels of heads already formed.

It will help some late wheat, flax, corn and fodder and root crops.

On wheat the rain will have the effect of arresting further damage, but cannot repair that already done. The best informed men in the trade believe that North Dakota can do no better than harvest half as much wheat as was harvested in that state last year. South Dakota damage appears to be pretty serious, especially in the important part of the James river valley. Southern Minnesota has a crop which promises better both in yield and quality than last year.

Central Minnesota is also good. Northern Minnesota is much impaired. Western Canada crops are doing better. Scattered rains and cooler weather has are still needed. Southern Manitoba is badly smitten and much of it will be plowed up. There are fine conditions in other places, which, with increased acreage, will make the total out-turn a fair one. Estimates range from 80,000,000 to 100,000,000 bushels of wheat.

NEW YORK, July 14.—The selling yesterday on the announcement of interstate commerce commission of suspension of advanced freight rates brought out but little stock and the succeeding recovery was rapid.

In fact, the market showed a more sold-out condition than for some time and the covering of short commitments could only take place by advancing prices.

As there is nothing just at the moment to cause a very broadening tendency without doubt the trading position will continue with dealings largely professional.

It must not be overlooked, however, that the short interest is rather extended and may become over-confident.

Bonds were irregular.

REPORTS CAUSE BULLISH MARKET

Considerable Buying Follows Receipt of News That the Russian Crop Is Short.

CHICAGO, July 14.—Alarming reports that tropical heat was shriveling the wheat crop in southern Russian caused considerable buying here today. Hot weather in the American spring wheat states was also a bullish factor. Millers' advices confirmed statements that previous damage by drouth and heat in the Dakotas and Minnesota was beyond repair. Much of southern Manitoba, it was said, would be plowed up.

Another item that received attention was the scantiness of shipments from Argentine. Advances of 18c to 18¾c were shown here at the outset. The September option opened that much up at $1.02½@1.02¾ and rose to $1.03¼.

There was much buying here from the northwest. Rains were counted inadequate. Damage was reported from Nebraska. The close was strong, with September 2¾@2½c net higher at $1.01½@1.04¾.

SUPPORTS WHEAT.

Fine rains made corn easy at the start, but the market later became firm in support with wheat. September opened unchanged to ⅛c lower at 59⅝c to 59¾c, and reacted to 60@60¼c.

The firmness continued throughout the session. The close was at 60¼c for September, a net gain of ⅜c.

Strength of wheat formed the chief influence in the oats pit. September opened unchanged to ⅛c up at 38⅜c to 38¾c, touched 38½c and advanced to 38⅝@38¾c.

Packers loosened their hold a little on provisions. The opening was 20c down to 7½c up. Some slight additional declines were recorded. First prices for the September delivery were at $21.80 to $22 for pork; $11.90 for lard and $11.82½ for ribs.

The closing quotations were as follows:

Wheat—July, $1.03¼; September, $1.04¾@1.04⅝; December, $1.05⅝@1.06⅞; May, $1.09.

Corn—July, 58¾c; September, 60¼c; December, 57½c; May, 59¼@59⅝c.

Oats—July, 41¼c; September, 38⅞@38c; December, 38⅝@38½c; May, 42c.

Pork—July, $25.40; September, $21.87½.

Lard—July, $12.07½; December, $11.85; October, $11.70; No. 4, $11.42½.

Ribs—July, $12.25; September, $11.75; October, $11.17½.

Rye—Cash, 75@76c.

Barley—Cash, 57@58c.

Timothy—September, $5.70; October, $5.60@5.80; March, $5.50.

Flaxseed—Cash, $1.70@1.71; September, $1.70; October, $5.60@5.80; March, $5.50.

Fearless—Until there is more pressure in the way of selling, the market is likely to become easily over-sold and we should therefore prefer to buy on the weak spots. With weather conditions as at present we look for a lowering of corn values.

Chapin & Co.—Advise purchases of wheat on good breaks.

Ware-Leland—Believe sales of wheat should be made on fair sized rallies. We favor sales of corn on bulges.

Fitch—Until condition in the northwest show decided improvement or until the winter wheat movement becomes burdensome we prefer purchases on the setbacks.

Wrenn & Co.—We still believe that the outcome of the crop will be materially larger than the condition give it by the government report in its last report suggested.

LIVERPOOL GRAIN

LIVERPOOL, July 14.—1:30 p. m.: Wheat, ⅜ to ½d higher; Corn, ⅝ to ¾d higher; Oct. 7s, 1¼s; adv., ⅜s; Dec. 7s, 2⅞s; adv., ⅜s.

LIVERPOOL, July 14.—Close: Wheat—July, 7s 7d; October, 7s 2d; December, 7s 3¼d. Weather, fine.

Cargoes—Wheat: The weakness in American markets was reflected slightly here at the opening and values were ¼ lower.

Undertone generally very firm and later prices advanced sharply, gaining⅝ to ¾d, what offerings light and shorts nervous.

Canadian advices are received here by private houses which reduce former crop estimates and Russian reports are again very bullish and it is generally feared that much damage will result from the great heat. There are no arrivals of cargoes off coast an don passage and there is a good demand for parcels.

Argentine shipments this week are expected to be light and Indian holders are very firm with a tightening up in Russian and Danubian offerings. The continent continues to bid freely for Australian cargoes arriving and they are firmly held. At midday the market was strong and 5s to 7s¾d higher than the opening and ⅝ to ⅞d higher than yesterday.

Corn was firm at the start and ⅛d higher, and later advanced ⅛ to ⅜d, with the principal strength in September.

The easy American cables were offset by the strength in La Plata cargoes and parcels and an urgent demand.

Reports from Russia continue of an alarming character.

One private cable says: Tropical heat continues and such damage has been done where the plant is shriveling.

Estimated Argentine shipments:

(By J. C. WILSON.)

July 14, 1910.

Wheat—Started rather tame, though a little higher. Later, however, the market became a runaway bull affair; the advance at the high figures showing about 2½c over yesterday's closing figures. The close was around the high prices of the day, and it looks tonight as if wheat has started for another up-turn that may carry prices above all previous high records. The feature today was foreign bull news concerning the outlook of the

Dr. George C. Pardee and W. H. Wellbye of Oakland have been selected as delegates from this city. They will be accompanied by the wives.

The party from this coast will be selected on account of the fact that two men of this city, one of each party, both commercial bodies, combined the purpose of visiting China and Japan, will represent the Pacific Coast commercial interests in the Celestial Empire and China.

The party will take with them samples of products of interest to the Chinese, which will be turned over to the Chinese Government.

Arriving in Shanghai September 20, the delegates will remain there five days. They will make a trip to Hangchow, Chinkiang and Soochow. From there the party will go by rail to Nanking, remaining there two days visiting the exposition and the Viceroy. Toons will next visit Chinkiang. Chinkiang to Hankow the journey will be furnished by the Chinese government.

From Chinkiang the party will embark on a steamer to be furnished by the China Merchants Steamship Company and proceed up the Yangtse river, stopping for a few hours at Wu Hu and Kikiang. A night will be spent for one day at Shasi. The party will then make an inland trip by rail on the great Honan railroad, which is now under construction.

WILL VISIT HANKAU

Returning to the steamer the trip to Hankau and the change of cars will be made. At that place a visit will be made to the Hanyang Iron Works, Government Arsenal, Cotton and Woolen mills. The party will then make the trip to Peking, 500 miles across the interior of China, and it will be made by the special train at various points of interest. Peking, ancient cities and methods of cultivating the soil that have not changed for thousands of years will be shown the visitors on the way.

At Peking with a population of 1,000,000 accommodations will be provided at the Hotel de Wagon Lits and the Hotel de Pekin. After a stop of two days, during which the principal points of interest will be shown the members of the party, Kalgan will be visited, where a delegation of Chinese merchants will welcome the visitors. Leaving Kalgan the party will proceed to Tientsin, where the party will be met by the Viceroy of Chihli province, who will escort the visitors to Tientsin, where a reception will be given by the Viceroy.

RUNS INTO FENCE TO AVOID POLICE

Smashes $250 Motorcycle in Effort to Evade Arrest.

Tuesday morning a would-be speeding automobilist was captured by the Alameda speeding squadron for exceeding the speed limit, the arresting officer being Walter Hedno of the East Fifty-first street and Seventeenth avenue police station. He was charged with exceeding the speed limit, the machine was stopped and he was ordered to appear in police court this morning.

Instead of obeying the command to halt the automobilist attempted to evade arrest by turning down North avenue, but in so doing lost control of the machine and crashed into a fence.

The machine was a complete wreck and it was only by great good fortune that Hedno escaped serious injury. He was taken to the police station and booked for exceeding the speed limit.

F. F. Martin of Oakland and George Elliott of Perkins were also taken into custody for speeding by the Flying Squadron and released on $25 bail.

He was a native of Germany, 70 years of age and leaves a widow and a family of several grown children in this city. The cause of death is thought to be heart failure.

SERGEANT WOULD ARREST SUPERIOR

Gives Chase in Automobile to Detectives With Prisoner.

Under the impression that he was in pursuit of three daring burglars, Desk Sergeant Jack Murphy of the Melrose police station raced madly in an automobile after a Oakland tractor company car and after overtaking it and before the latter had stopped for a battle with the things discovered that he was attempting to arrest two Oakland detectives in charge of a prisoner. The mistake was made in the first instance by a neighbor of the prisoner in custody, who had seen the detectives wandering about the house in a suspicious manner and had afterwards seen them leave it. With his automobile he had rushed to the police station and, taking the sergeant as a passenger, had given chase to the supposititious thieves who were on board an electric car.

The prisoner was Pete Toschi, arrested on a charge of burglary preferred by the San Jose police and the arrest was made by Detectives Green and Emrich of the Oakland police department. When the automobile overtook the car there was a scene of confusion, as the passengers, fearing a battle, fled from the car. Following an explanation the detectives continued on their way to Oakland with the prisoner, while Sergeant Murphy and the disgusted neighbor returned Melrose-ward.

Beside Toschi Detective Hodgkins who arrested two other prisoners wanted in San Jose, Fred Gargiuto and Fred Soares, both of whom are charged with stealing bicycles. Officers Benjamin of the San Jose department was able to take only Toschi and Soares south with him, and will return for Gargiuto.
